Key benefits

- Global innovation: solar keyboard with energy-saving optical mouse
- “Advanced keyboard technology” for even better key actuation
- Outstanding design with continuous keys
- Global innovation: 10 side-mounted XPress keys for horizontal and vertical navigation and quicker access to important functions or individual XPress lists
- Precise work with high-resolution (800 dpi) optical right and left-handed mouse
- Individual and simple key programming with the proven KeyM@n software with new, comfortable functions
- High security transmission (encryption) with “Cherry Secure Radio Technology”
- Mouse pointer control also via the cursor keys
- Individual @ key and individual currency key with quick-change between decimal point and comma in the Num block
- Mouse loading function even during operation
- Integrated rechargeable battery buffering for long operation even in low light areas
- 5 internet keys, 5 multimedia keys, 4 premium keys, 4 main keys for free programming and a KeyM@n key for controlling additional useful functions
- Comfortable typing thanks to new-style key caps
- Removable wrist rest space saving upright storage feature for more space on your desk
- Multi-haptic key areas for optimal actuation feel, even for special keys

KeyM@n software

With the help of the included KeyM@n software, you can program all 29 additional keys freely (e.g. with text and key macros).

The quick-drop function enables the simplest key configurations.

With the “Cherry Template Technology” individual users can save and export their key programming. Even the mouse buttons are individually programmable with KeyM@n.

NEW: for network administrators

- Remote installation / central installation via Microsoft SMS
- Remote configuration of individual keys thanks to the KeyPort application

You can find free KeyM@n updates at <http://support.cherry.de>
KeyM@n runs under Windows 98, ME, NT4.0, 2000 and XP

System requirements

- USB or PS/2 keyboard and mouse interface
- IBM or compatible PC
- CD-ROM drive
- Approximately 10 MB free hard disk space for KeyM@n installation
- Sound card and loudspeaker (optional)

Technical specifications

- Weight:
Approximately 1,188 g (without packaging)
Approximately 2,200g (with packaging)
- Size:
Approximately 495 x 195 x 37 mm (keyboard without wrist rest)
Approximately 495x247x37 mm (with wrist rest)
Approximately 560 x 325 x 65 mm (packaging)

- Range: typ. 2m
- Storage temperature: -20 °C to 60 °C
- Operating temperature: 0 °C to 50 °C
- Lifespan of the standard individual keys:
>20 million operations
- Interface: USB or PS/2
- Current consumption:
Keyboard type 6mA (at 2.0-3.3V)
Mouse type 6mA (at 2.0-3.3V)
Receiver type 6mA (at 4.0-5.25V)
