Congratulations

Congratulatory message from the Chancellor

On behalf of the Deakin community, I congratulate you on graduating from Deakin University – your University.

Today's ceremony not only marks the completion of years of hard work and dedication, it also signifies the beginning of an exciting new chapter in your life.

As you walk across the stage to take these first steps towards your profession, an entrepreneurial pursuit or perhaps to further study, I encourage you to see this success as both a source of pride in your past achievements and as a basis for confidence in your future.

Your Deakin University degree has given you the knowledge and skills needed for success in our fast-changing world.

Graduation day is also a very proud day for those who have been there with you throughout your academic journey. Seize the opportunity to celebrate your achievements with the friends, family and teachers who care about you.

Mr John Stanhope AM

As Deakin alumni, you are part of a valuable global network that gives you links to the people, information and ideas whenever you need them.

I too am a proud Deakin alumnus. I know Deakin as a vibrant and dynamic community and have valued the lifelong friendships and networks I have made as a consequence of my education.

Mr John Stanhope AM
Chancellor

Congratulatory message from the Vice-Chancellor

Congratulations! You are now a graduate of Deakin University. It is an important day for you and your family, and a proud day for us too, as we watch you and your fellow graduates walk across the stage.

My message to all of you is that whatever your future career, pursue your passion even when the road ahead seems difficult. Work hard, have fun, but remain aware of the inevitable and constant changes in the world and the fabulous opportunities that will come your way. Remember that the greatest innovations in history always come from people who are bold enough to explore new frontiers and to think differently. Be curious, be brave, be creative and be persistent.

The key message of this graduation ceremony is that it tells you that you're ready to go in to action. Ideas, knowledge and know-how will be the critical currency for success in the 21st century, and I hope you will put your degree to work to make a difference in the world.

Very often it is only after graduation that graduates recognise the importance of the stature and reputation of their university. After all, it is a university's reputation that determines the value and currency of the award you have worked so hard to attain.

Professor Jane den Hollander AO

You will be pleased to know that Deakin now ranks 213 in the prestigious Shanghai Jiao Tong ranking of the world's universities, and ranks in the top two per cent of the world's universities in all the major rankings.

Congratulations on the degrees you have been awarded. Have a memorable day, enjoy the celebration and I wish you good fortune for your future.

Professor Jane den Hollander AO
President and Vice-Chancellor

Welcome to Deakin University Graduations

Welcome!

We would like to warmly welcome you to Deakin University's graduation ceremony. This program lists every student graduating, including those not in attendance and graduating in absentia. The graduation ceremony will run for approximately 90 minutes and ushers are available at the venue doors to provide information and assistance. All guests should be seated 15 minutes before the ceremony start time. Please ensure your mobile phone is switched off prior to entering the venue and that you familiarise yourself with the emergency evacuation procedures, located at the back of this program. We hope you enjoy the ceremony.

欢迎光临!

热烈欢迎您参加迪肯大学毕业典礼。此典礼适用于所有毕业生，包括不参加和缺席毕业生。毕业典礼将持续90分钟，现场门前会有礼仪人员介绍情况和提供帮助。所有嘉宾需在典礼开始前15分钟就坐。进入现场前，请关闭手机，并熟悉紧急疏散程序。程序内容请见典礼介绍册封底。愿您度过美好典礼时光。

आपका स्वागत है!

हम डीकिन विश्वविद्यालय के स्नातक समारोह में गर्मजोशी के साथ आपका स्वागत करते हैं। इस कार्यक्रम में हरेक विद्यार्थी सूचीबद्ध है जो आज स्नातक की उपाधि प्राप्त करेगा। इनमें वे विद्यार्थी भी शामिल हैं जो उपस्थित नहीं हैं और इन एब्सेंशिया उपाधि प्राप्त कर रहे हैं। स्नातक समारोह लगभग 90 मिनटों तक चलेगा। जानकारी और सहायता प्रदान करने के लिए आयोजन-स्थल के द्वारों पर स्वागतकर्ता मौजूद हैं। समारोह शुरू होने के 15 मिनट पहले सभी अतिथि बैठे होने चाहिए। कृपया यह सुनिश्चित करें कि आयोजन-स्थल में प्रवेश करने से पहले आपने अपना मोबाइल फोन स्विच-ऑफ कर दिया है तथा आपातकालीन निकासी प्रक्रियाओं से खुद को परिचित कर लिया है, जोकि इस कार्यक्रम के पीछे दी गई हैं। हम उम्मीद करते हैं कि आप समारोह का आनंद उठाएँगे।

Chào mừng quý vị!

Chúng tôi nồng nhiệt chào đón quý quan khách đến dự buổi lễ tốt nghiệp trường Đại học Deakin. Từ chương trình này liệt kê tất cả sinh viên tốt nghiệp, kể cả sinh viên không đến dự lễ và sinh viên tốt nghiệp theo diện vắng mặt. Buổi lễ tốt nghiệp này dài khoảng 90 phút và người chỉ chỗ ngồi sẽ túc trực tại các cửa ra vào hội trường để giải đáp thắc mắc và giúp đỡ. Tất cả quan khách nên an tọa 15 phút trước giờ khai mạc. Xin quý vị nhớ tắt điện thoại di động trước khi vào hội trường và quý vị đã đọc và hiểu thủ tục di tản trong trường hợp khẩn cấp theo thông tin ở mặt sau tờ chương trình này. Chúng tôi mong quý vị sẽ thấy thích thú với buổi lễ này.

Selamat Datang!

Kami ucapkan selamat datang di Upacara Wisuda Deakin University. Pada buku acara ini tercantum nama semua mahasiswa yang diwisuda, termasuk mereka yang tidak bisa hadir dan diwisuda in absentia. Upacara wisuda akan berlangsung sekitar 90 menit; informasi dan bantuan bisa diperoleh dari petugas penerima tamu di pintu keluar/masuk ruangan. Semua tamu sudah harus berada di tempat duduk masing-masing 15 menit sebelum upacara dimulai. Jangan lupa untuk mematikan telepon selular sebelum memasuki ruangan, dan pelajari prosedur evakuasi darurat yang tercetak di bagian belakang buku acara. Selamat mengikuti upacara.

مرحبا بكم!

نود أن نرحب بكم ترحيبا حارا في حفل تخرج جامعة ديكن. يتضمن هذا البرنامج جميع الطلاب الذين تخرجوا، بما في ذلك الذين لم يحضروا وتخرجوا غيابيا. سيستمر الحفل حوالي 90 دقيقة وسيتواجد مرشدون على أبواب الدخول لتقديم المعلومات والإرشاد. يجب على جميع الحضور الجلوس في مقاعدهم قبل بدء الحفل بـ 15 دقيقة. كما يرجى التأكد من إغلاق الهواتف المحمولة قبل الدخول إلى مكان الحفل وأنكم قد تعرفتم بأنفسكم على إجراءات إخلاء الطوارئ، الموجودة في الجزء الخلفي من هذا البرنامج. نأمل أن تستمتعوا بالحفل.

The Graduation Ceremony

'Kim barne barre Wadawurrung Dja' Welcome to Wadawurrung Country

Deakin University would like to acknowledge the Wadawurrung People, the traditional custodians of the land and the Wathaurong community where this graduation ceremony is taking place. We pay our respects for their continued care of the land and further extend that respect to elders past and present.

Order of Ceremony

Processional music heralds the arrival of the Academic Procession for the graduation ceremony.

At the commencement of this music, graduands and guests are asked to stand and remain standing for the National Anthem.

The Master of Ceremonies will open proceedings and the Chancellor (or representative) will deliver the opening address. The Vice-Chancellor will then introduce the guest speaker who will deliver the occasional address.

The Chancellor (or representative) will then make a formal declaration conferring the awards of the University on the graduates, both present and in absentia, and will invite graduates to proceed to the stage according to the order published in the program.

A Faculty Executive Dean will read out the names of graduates being presented to the Chancellor.

At the conclusion of the presentation of the graduates, a representative of the graduating students will deliver a brief response.

The Vice-Chancellor will deliver the closing address. Following the closing address, there will be a musical performance.

At the conclusion of the ceremony guests are requested to stand while the stage party and graduates leave the hall.

Refreshments will then be served in the marquee in the John Hay Courtyard.

The University Mace

Maces were originally medieval weapons carried by bodyguards to kings and sergeants-at-arms. Much later, the mace became of ceremonial rather than practical significance and organisations such as civic corporations and universities adopted the mace as a symbol of the rule of legal authority.

The University's mace is displayed at meetings of the University Council and on such ceremonial occasions as conferring ceremonies. The bearer of the mace, in academic processions, 'guards' the Chancellor. Deakin's mace was presented to the University by Mr Donald Thomson, Sir Wilfred Brookes and Mr Norman Stephen (Alcoa Australia).

The Academic Procession

In academic processions, the order of precedence on entry is from junior to most senior. The Chancellor, therefore, is the last member of the procession, followed by the mace-bearer. The Deakin Academic Procession and stage party usually consists of:

Chancellor:

Mr J. Stanhope AM, BCom *Deakin*, FAICD, FAIM, FCPA, FICA, FHRM

Deputy Chancellors:

Ms K. Grigg, BEc *Adelaide*, DipEd *Adelaide*, FAICD, FCPA

Mr P. J. Meehan, BBus *RMIT*, FCA, FCPA

Members of the University Council

Honorary degree recipients

Members of the University Executive:

President and Vice-Chancellor:

Professor J. den Hollander AO, BSc (Hons), MSc *Wits*, *Johannesburg*, PhD *Wales*, *Cardiff*

Deputy Vice-Chancellor Research:

Alfred Deakin Professor P. Hodgson, BE (Hons) *Monash*, PhD *Qld.*, FIEAust, FTSE

Deputy Vice-Chancellor Education:

Professor B. Oliver, BA (Hons) *W.Aust.*, GradDipEd *Murdoch*, MPhil *W.Aust.*, PhD *W.Aust.*

Deputy Vice-Chancellor

Global Engagement:

Professor G. Smith, BA (Hons), PhD *Monash*

Chief Advancement Officer:

Mr R. Fairchild, BHK (Hons) *Windsor*, CFRE

Chief Operating Officer:

Mr K. Selway, BBus (Marketing) *Monash*, GDip (Management) *Victoria UT.*, FAICD

Chief Financial Officer:

Ms K. Parker, BBus (Accounting) *Monash*, GCert (IT) *Swinburne*, FCPA, GAICD

Chief Digital Officer:

Mr W. Confalonieri, DipSysEng *UNICEN*, MCompSci *UNL*, MBAEco *ESEADE*, GAICD

Faculty Executive Deans:

Executive Dean of the Faculty of Arts and Education:

Professor B. Cherednichenko, TPTC *Toorak*, DipArts *Prahran CAE*, B Ed *Vic College*, Grad Cert Indigenous Sec Mgt *ECU*, MSc (Ed) *Rochester, NY*, PhD *Melb.*

Executive Dean of the

Faculty of Business and Law:

Alfred Deakin Professor M. Ewing, BCom *Natal*, BCom (Hons), MCom, DCom *Pretoria*, FAMI, FAMS, FANZMAC

Executive Dean of the Faculty of Health:

Professor B. Crotty, MBBS, MD *Melb.*, FRACP

Executive Dean of the Faculty of Science, Engineering and Built Environment:

Professor T. Day, DipEd, BSc, BSc (Hons), PhD(Med) *Flinders*

Pro Vice-Chancellors:

Pro Vice-Chancellor Research Training and Performance Enhancement:

Professor J. Graffam, BBS *Cal. State U.*, MA *UCLA*, PhD *UCLA*, FAICD; MAPS; MACEA

Pro Vice-Chancellor Teaching and Learning:

Professor E. Johnson, B Ag Sci (Hons) *Melb*, PhD *Melb*

Pro Vice-Chancellor Graduate Employment:

Professor D. Mather, BSc (Hons) *Lond.*, MSc. *Lanc.*, PhD *Monash*

Pro Vice-Chancellor International

Mr J. Molony, BA (Media Studies) *RMIT*

Pro Vice-Chancellor Defence Technologies

Alfred Deakin Professor S. Nahavandi, BSc (Hons), MSc, PhD *Durham University, UK*

Pro Vice-Chancellor Academic Innovation

Professor S. Gopalan BA LLB (Hons) *NLSIU*, BCL *Oxon*, DPhil *Oxon*.

Pro Vice-Chancellor Researcher Development and Integrity

Professor A. Russell CHed, BTeach, BEd, BAppSc (Hons), PhD *Deakin*

Academic Board:

Chair of Academic Board:

Professor C. Hickey, DipTeach *Monash*, BPE *UWA*, MEd *UWA*, PhD *Deakin*, FACHPER

Heads of schools and academic staff of the faculties participating in the ceremony.

Academically qualified general staff of the University.

Academic Dress

Academic dress is an important reminder of the long history of universities in western civilisation. The three main elements of academic dress are the gown, the hood and the head-dress, which were all once articles of everyday outer dress. Both gowns and hoods, when in common use, were often lined and this lining was decorative, as well as practical. In medieval times, the higher the rank of the wearer, the more sumptuous the gown.

In universities there is still a difference in the apparel of scholars of various ranks reflecting the origins of the academic dress. Today's academic head-dress evolved from various hats and bonnets of earlier times. Deakin University's academic dress, like that of most Australian universities, derives from dress worn at the Universities of Oxford and Cambridge.

Deakin University Ceremonial Dress

Chancellor – a navy blue gown trimmed with gold bullion braid, sleeves trimmed with four gold ornaments and gold bullion braid around the bottom hem, a navy blue bonnet lined with gold satin, with gold braid and two gold metallic tassels.

Deputy Chancellor – a navy blue gown with one gold ornament at the sleeve head and a navy blue tudor bonnet identical to that of the Chancellor.

President and Vice-Chancellor – a navy blue gown with five bars of gold bullion braid on the sleeves and a navy blue tudor bonnet identical to that of the Chancellor.

Deputy Vice-Chancellor – a navy blue gown trimmed with wide gold bullion braid and a navy blue bonnet identical to that of the Chancellor.

Pro Vice-Chancellor – a navy blue gown trimmed with narrow gold bullion braid and a navy blue tudor bonnet identical to that of the Chancellor.

Alfred Deakin Professor

Academic staff who have been awarded the title Alfred Deakin Professor will wear academic regalia befitting their highest qualification as well as an Alfred Deakin Professor stole which will be worn over the top of the gown.

Deakin University Academic Dress

Higher Doctorate – a red gown with gold silk front facings finishing at the front yoke line, sleeves fully lined with gold silk and turned back at the front seam, together with a red hood lined with gold silk and a red bonnet with gold tassels.

Doctor of Philosophy – a royal blue gown with red silk front facings finishing at the front yoke line, sleeves fully lined with red silk and turned back at the front seam, together with a royal blue hood lined with red silk and a royal blue bonnet with red tassels.

Professional Doctorate – a royal blue gown with the relevant discipline colour silk front facings finishing at the front yoke line, sleeves fully lined with the relevant discipline colour silk and turned back at the front seam, together with a royal blue hood lined with silk of the relevant discipline colour, and a royal blue bonnet with blue tassels.

Master by Research – a navy blue master gown, Cambridge hood lined with silk of the relevant award colour and trimmed with two white pipes, colour is shown on both shoulders, and a navy blue trencher trimmed with white binding and white tassels.

Master by Coursework with Honours – a navy blue master gown, Cambridge hood lined with the appropriate coloured silk and trimmed with two white pipes, colour is shown on both shoulders, and a navy blue trencher with navy blue tassels.

Master by Coursework – a navy blue master gown, Cambridge hood lined with the appropriate coloured silk and trimmed with one white pipe, colour is shown on both shoulders, and a navy blue trencher with navy blue tassels.

Graduate Diploma – a navy blue bachelor gown, Oxford hood lined with the appropriate coloured silk and trimmed with one white pipe, colour is shown on the left shoulder only, and a navy blue trencher with navy blue tassels.

Graduate Certificate – a navy blue bachelor gown, Oxford hood lined with the appropriate coloured silk and trimmed with the same colour pipe, colour is shown on the left shoulder only, and a navy blue trencher with navy blue tassels.

Bachelor Degree with Honours – a navy blue bachelor gown, Oxford hood lined with the appropriate coloured silk and trimmed with two white pipes, colour is shown on the left shoulder only, and a navy blue trencher with navy blue tassels.

Bachelor Degree – a navy blue bachelor gown, Oxford hood lined with the appropriate coloured silk, colour is shown on the left shoulder only, and a navy blue trencher with navy blue tassels.

Associate Degree – a navy blue bachelor gown, Oxford hood lined with the appropriate coloured silk, colour is shown on the left shoulder only, and no trencher.

Diploma or Advanced Diploma – a navy blue bachelor gown, stole of the appropriate colour and no trencher.

Koorie Stole – a silk stole in the colours of the Koorie flag may be worn under the hood or stole of the relevant award.

Regalia Colours

Architecture	Oyster grey
Arts	Cherry red

Information technology	Wisteria
Law	Garnet
Medicine	Ivory
Nursing	Peacock green
Science	Spectrum blue
Social work	Spectrum violet

All participants in the graduation ceremony must wear the appropriate academic dress for their qualification or for the position they hold at the University.

Deakin Award Appellations

In the official abbreviations of our awards, Deakin University is abbreviated to *Deakin*. For example, BCom *Deakin*.

Honorary Degree Recipients

Honorary degrees are conferred by the University Council on the recommendation of the Vice-Chancellor, following consideration by the Honorary Degrees Committee.

2017

Air Chief Marshal Mark Binskin AC –
Deakin Honorary Doctorate

Dr Elizabeth Broderick AO – *Deakin Honorary Doctorate*

His Excellency Dr Charles Lepani CBE –
Deakin Honorary Doctorate

Dr V Mohan – *Deakin Honorary Doctorate*

Professor B S Murty – *Deakin Honorary Doctorate*

Hon. Judith Troeth AM – *Deakin Honorary Doctorate*

Hon. Ranil Wickremesinghe – *Deakin Honorary Doctorate*

2016

Professor Michel Armand – *Deakin Honorary Doctorate*

Dr Bill Forrest AM – *Doctor of Letters*

Hon. Julia Gillard AC – *Doctor of Laws*

Dr Jenni Lightowlers – *Deakin Honorary Doctorate*

Dr David Morgan AO – *Deakin Honorary Doctorate*

Lieutenant General David Morrison AO (Retd) –
Deakin Honorary Doctorate

Dr Dalal Smiley – *Doctor of Laws*

Emeritus Professor Gillian Triggs – *Deakin Honorary Doctorate*

Professor Yongxian Zhang – *Deakin Honorary Doctorate*

2015

Dr Megan Clark AC – *Doctor of Science*

Professor Brad Dunstan – *Doctor of Science*

Professor William Hutchinson – *Doctor of Science*

Dr Leon Kempler OAM – *Doctor of Science*

Dr Sue Natrass AO – *Doctor of Letters*

Dr Tim Soutphommasane – *Doctor of Letters*

Emeritus Professor David Stokes AM –
Doctor of the University

Dr Helen Szoke – *Doctor of Laws*

Dr David Thodey AO – *Doctor of Science*

Dr Kurt Zuelke – *Doctor of Science*

2014

Dr Peter Alsop – *Master of Science*

Dr Mukesh Dhirubhai Ambani – *Doctor of Science*

Dame Quentin Bryce AD CVO – *Doctor of Laws*

Emeritus Professor Max Charlesworth AO –
Doctor of Letters

Hon. Simon Crean – *Doctor of Laws*

Dr Baba Kalyani – *Doctor of Science*

Hon. Jeffrey Kennett AC – *Doctor of Laws*

Dame Carol Kidu DBE – *Doctor of Laws*

2013

Dr Adrian Kloeden – *Doctor of the University*

Dr Ray Reynoldson – *Doctor of Science*

Professor David Parkin OAM – *Doctor of Letters*

2012

Hon. Michael Kirby AC – *Doctor of Laws*

2011

Dr Pauline Turner – *Doctor of the University*

Professor John Duncan – *Doctor of Science*

2010

Hon. Steve Bracks AC – *Doctor of Laws*

Professor Yusuf Qismullah – *Doctor of Letters*

Emeritus Professor Sally Walker AM – *Doctor of Laws*

Dr John Henry – *Doctor of Letters*

Emeritus Professor Adrian Lee – *Doctor of Science*

2008

Professor Judith Ramaley – *Doctor of Laws*

2006

Emeritus Professor Phillip Hamilton AM –
Doctor of Science

2005

Dr Richard Searby – *Doctor of Laws*

Dr Kenn Fisher – *Doctor of Science*

2004

Dr Alfred Bamblett – *Doctor of Laws*

Dr Jim (James) Cousins – *Doctor of Letters*

Hon. Allan McDonald AO – *Doctor of Laws*

Dr John Landy AC – *Doctor of Laws*

2003

Dr Steve Vizarrd – *Doctor of Laws*

Dr Neil Everist OAM – *Doctor of Letters*

Dr James Cousins AO – *Doctor of Letters*

Dr Frank Costa AO – *Doctor of Laws*

Dr Jim Rossiter AM – *Doctor of the University*

Dr Denise King – *Doctor of the University*

Dr Patricia Heath AM – *Doctor of Laws*

2002

Dr Geoffrey Dreher – *Doctor of the University*
Dr Harold Mitchell AC – *Doctor of Laws*
Dr John Tait – *Doctor of the University*

2001

Dr Hugh Moore – *Doctor of the University*

2000

Dr Joseph Pillay – *Doctor of Laws*
Dr Graham Rouch – *Doctor of Science*

1999

Dr Walter Backhouse OAM – *Doctor of the University*
Dr Margaret Cameron AM – *Doctor of the University*
Dr George Dyer – *Doctor of the University*
Dr Donald Neilson AM – *Doctor of the University*
Dr Thomas Schneider – *Doctor of Laws*
Dr James Martin – *Doctor of Laws*

1997

Dr Peter Kwong-Ching Woo – *Doctor of Laws*
Dr Stephen Yeap Leong Huat – *Doctor of Laws*
Dr Sharom Ahmat – *Doctor of Laws*

1996

Dr James Leslie AC – *Doctor of Laws*

1995

Hon. Anthony Mason AC – *Doctor of Laws*
Professor John Hay AC – *Doctor of Letters*

1994

Professor Kenneth McKinnon AO – *Doctor of Letters*
Dr Victor Smorgon AC – *Doctor of Letters*
Dr Kenneth Kaunda – *Doctor of Laws*

1993

Dr Robert Brack – *Doctor of Laws*
Dr Gilbert Vines – *Doctor of the University*

1992

Dr Raymond Chambers AO – *Doctor of Laws*

1991

Tun Dr Haji Hamdan – *Doctor of Letters*
Dr Jean McCaughey AO – *Doctor of Letters*
Dr Peter O'Halloran – *Doctor of Science*
Dr Marjory Taylor – *Master of Arts*

1990

Dr Geoffrey Caston CBE – *Doctor of Letters*
Dr Inge King AM – *Doctor of Letters*
Dr Ewan Laird – *Doctor of Letters*
Dr Isi Leibler AO – *Doctor of Letters*
Dr David Roach – *Doctor of Letters*

1989

Sir James Darling CMG – *Doctor of Letters*
Dr Renee Erdos – *Doctor of Letters*
Rt Hon. Malcolm Fraser AC – *Doctor of Letters*
Dr Charles Jarvis – *Master of Science*
Dr Patrick Lang – *Doctor of Science*
Sir Arvi Parbo AC – *Doctor of Science*

1988

Sir Ian McLennan KCMG – *Doctor of Science*
Dr William Renwick – *Doctor of Letters*

1986

Professor Fred Jevons AO – *Doctor of Letters*
Dr Robyn Williams – *Doctor of Science*

1985

Dr Diana Dyason – *Doctor of Letters*
Emeritus Professor Otto Peters – *Doctor of Letters*
Dr Borje Holmberg – *Doctor of Letters*
Dr John Daniel – *Doctor of Letters*

1984

Dr Menzie Lipson AO – *Doctor of Science*
Dr John Bechervaise OAM – *Doctor of Letters*

1983

Professor Charles Moorhouse AM – *Doctor of Letters*
Dr Peter Thwaites – *Doctor of Letters*

1982

Sir Wilfred Brookes CBE – *Doctor of Letters*
Dr Trevor Pescott – *Master of Science*

1981

Lord Walter Perry OBE – *Doctor of Letters*
Dr Philip Brown – *Doctor of Letters*
Hon. Austin (Keith) Asche AC – *Doctor of Letters*
Dr Arthur Collins – *Doctor of Science*
Dr Ian Downs – *Doctor of Letters*
Dr Kenneth Stewart – *Master of Arts*
Dr Mary White – *Master of Science*

The Performers

Deakin's graduation ceremonies include a number of live musical performances, including the National Anthem and a musical arrangement at the conclusion of the ceremony. These are the biographies of the artists who perform at the ceremonies. Performers may vary between ceremonies.

Michael Cristiano

Michael Cristiano is one of Australia's most highly acclaimed performers and producers. As a producer, his name can be found on numerous multi-platinum selling albums by such artists as The Seekers, Judith Durham, Silverchair, Andre Rieu and Gene Pitney amongst many other big names. He has also wowed audiences on stage as a singer and guitarist. He is one of the country's most respected musicians and composers, has taken home many music awards and played live to an international audience of millions at the AFL Grand Final with his own composition 'Rock The G'.

Ron Murray

Ron Murray is a Wamba Wamba man (Swan Hill area) living at Yapeen, near Castlemaine in central Victoria on Jaara country. He has performed as a didgeridoo soloist widely in Australia and also in New York, Jordan, Canada and New Zealand.

Ron has performed for Queen Elizabeth II, Yusuf Islam (Cat Stevens), Sir Bob Geldof and Muhammed Ali. Musical highlights include performing at the world premiere of American composer Phillip Glass' Voices for Didgeridoo, Organ and Narrator (2001) with Mark Atkin, Calvin Bowman and Joy Murphy-Wandlin at the Lincoln Center Festival, New York.

Ron regularly performs as a foundation member of the Deep Listening Band, a collaboration of Indigenous and non-Indigenous musicians and artists based on the Indigenous philosophy of Dadirri.

Mary Catanchin

Singer/songwriter Mary Catanchin has entertained in countless shows throughout Australia for the past six years. She is no stranger to the big stage, performing in venues such as Crown Palladium, The Melbourne Convention and Exhibition Centre, Federation Square, Etihad Stadium and Crown Casino Perth for corporate and public events. In 2014 Mary's original band Heavy Feather released their debut E.P. 'Carry you Home' which received community radio airplay as well as being featured on Triple M's Homegrown Program, which aired nationally. Currently Mary fronts popular cover band Every Avenue, performing up to four nights a week throughout Melbourne.

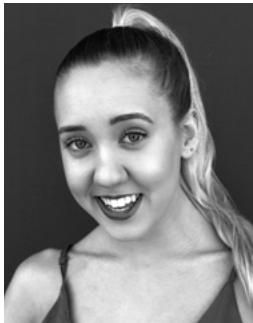

Jessica Markovski

Jessica Markovski is a singer/songwriter from Geelong.

Praised for her vocal skills and her remarkable ability to play numerous instruments, she is consistently greeted with exceptional accolades by world known musicians. She has toured Europe and America with 'The Sweethearts', playing at festivals such as Summerfest, Jazz A Vienne and Porretta Soul Festival, and was invited to perform at the Legendary BB King's cafe in Memphis, Tennessee.

Her passion for composing and performing continuously presents her with many exciting opportunities as a solo artist. She is currently recording and releasing her original compositions and is also involved in commercial modeling and acting.

Janeva Burrill

Geelong local Janeva Burrill is a singer/songwriter that has been immersed in the performing arts from a very early age. Her passion for music has seen her travel the world with local soul band 'The Sweethearts' performing at some of the world's most prestigious international festivals including Montreal Jazz Festival, Porretta Soul Festival, Jazz a Vienne and SummerFest.

Janeva featured in the ABC3 reality documentary show 'Heart&Soul' which followed the journey overseas with 'The Sweethearts' and also wrote the opening title song for the series. After spending years teaching, vocal mentoring and performing, Janeva decided to begin her own solo career and released her first single 'You & I' earlier this year which placed #1 on the Triple J Unearthed charts.

Janeva has covered the country over the last year performing with 'LDRU' singing the Aria nominated hit song 'Keeping Score' and has been a feature vocalist on tracks with Melbourne producers London Topaz, Tentendo and Dugong Jr. which collectively have accumulated hundreds of thousands of online streams.

Earlier this year Janeva signed a global publishing deal with Sony ATV as a songwriter and an artist and is inspired to keep working hard to continue doing what she loves as a career into the future.

The University

Alfred Deakin

Deakin University was named in honour of Alfred Deakin (1856–1919), a remarkable Australian statesman, leading figure of the federation movement and three-time Prime Minister of Australia.

Alfred Deakin was a man of broad vision. Praised as a political leader, he was an outstanding orator, accomplished lawyer, a journalist, poet, an intellectual and an idealist motivated by a sense of duty to his country.

The son of English migrants, Alfred Deakin was born and educated in Melbourne, studying law at the University of Melbourne. He embarked upon a career in journalism with *The Age* and was a prolific reader of literature, philosophy, law and science, earning most of his income as a writer of social and political commentaries.

In 1879, Alfred Deakin launched his political career and became a successful Liberal candidate for the Victorian Parliament. A believer in democratic social reform, he became the acknowledged leader of the Australian Federation movement in Victoria. He was an active campaigner, a delegate at the federal conventions, member of the constitutional drafting committee and colonial representative in London.

Alfred Deakin was Deputy Prime Minister and Attorney-General in Australia's first government and, in 1903, he became Prime Minister. His many achievements include the establishment of the High Court of Australia, the introduction of labour and social reforms, the promulgation of new technologies such as irrigation and wireless telegraphy, support for the exploration of Antarctica and the introduction of financial support for Australian writers.

Alfred Deakin

The values of innovation, leadership, scholarship and reform embodied in Alfred Deakin are also fundamental values of Deakin University.

About Deakin University

Deakin University is Australia's seventh largest university. As a public not-for-profit university, Deakin combines excellent research and teaching with a strong focus on strengthening the communities it serves.

The University was established with the Deakin University Act of 1974 as Victoria's fourth university and the first in regional Victoria. Today it has 56 000 students, of whom almost 10 000 are international students from over 100 countries. More than 13 000 students choose to study online.

Deakin University has five campuses – one in Melbourne, two in Geelong, one in Warrnambool and the online Cloud Campus.

In addition, Deakin has prestigious multipurpose facilities in the Melbourne and Geelong and international offices in India, China, Indonesia and Latin America.

Deakin is a sector leader for student satisfaction, currently ranked number one in Victoria (Graduate Outcomes Survey 2017). Deakin has a student-focused culture with a well-deserved reputation for being accessible, helpful and friendly. It has a long standing record for using cutting-edge technology in education, while providing highly personalised learning experiences.

Advances in research have been a hallmark of Deakin's success in recent years, with impressive growth in quality, impact and income.

In the most recent Excellence in Research for Australia (ERA) rankings, Deakin ranked at or above world standard in 90 per cent of its research.

Deakin is renowned for developing award-winning partnerships with industry, governments, communities, professional associations and other education providers. Building on successes across Australia, these alliances now spread to more than 30 countries. Deakin's alumni networks also stretch across the globe, with more than 220 000 members from more than 110 countries.

Building on the University's success

Deakin University's Strategic Plan – *LIVE the future: Agenda 2020* – provides a framework for a bold and exciting future, while remaining true to the University's founding goals:

- to develop lasting and mutually beneficial relationships with rural and regional communities, in particular those in Geelong and Western Victoria
- to offer an educational experience that will widen participation and support students from diverse backgrounds.

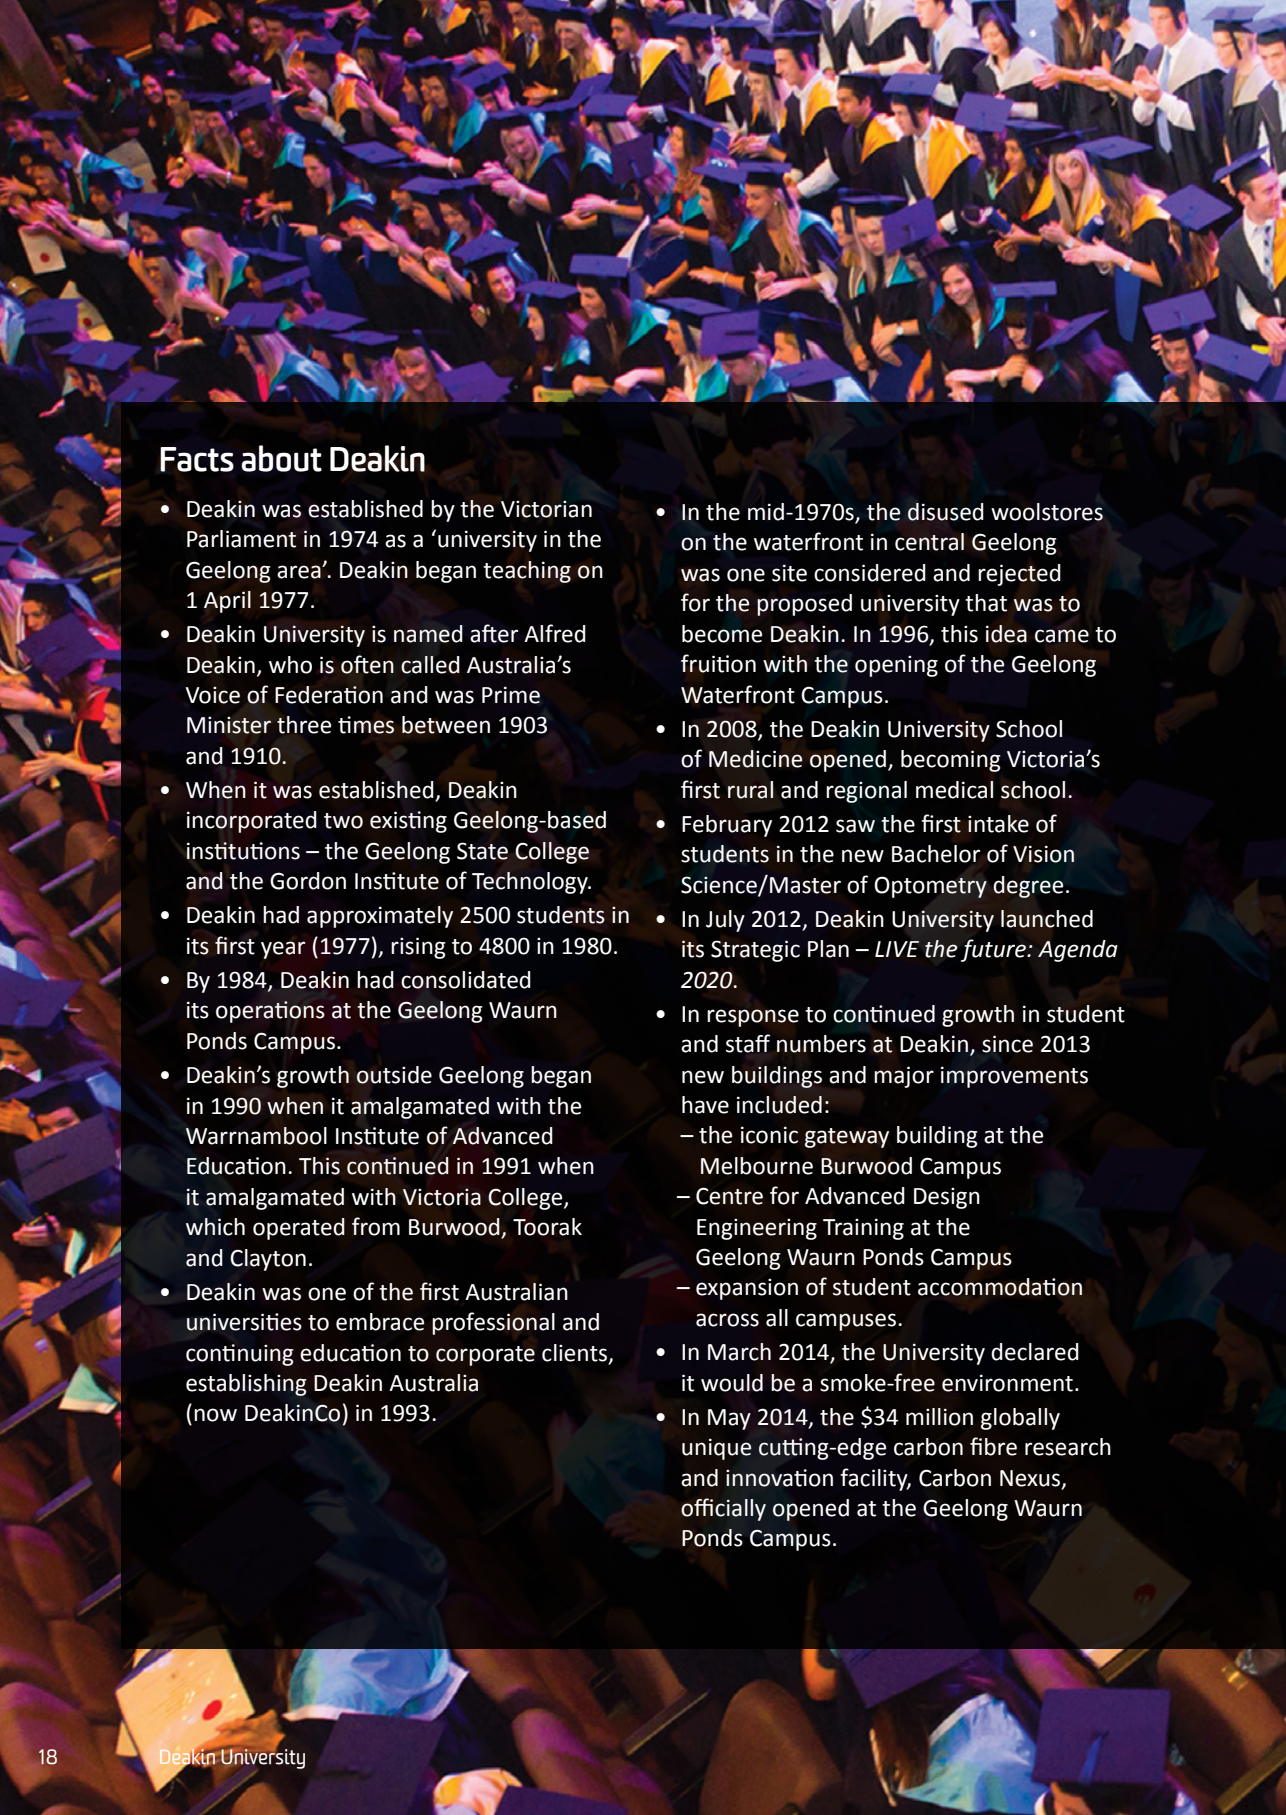

These important aims continue to be core to the future of Deakin University. However, in a world that is now globally connected and where excellence and new ideas are available at the touch of a button, we will ensure that engagement and innovation 'anywhere' and 'everywhere we are' is grounded in all aspects of Deakin life – its teaching, its research and its enterprise – to enable our students and staff to thrive and to excel.

The University's vision and mission for its students, staff, alumni, partners and friends is to offer personalised experience with premium digital engagement, creating the power and opportunities to live in a connected and evolving world. Deakin will be Australia's premier university in driving the digital frontier – to enable globally-connected education for the jobs of the future and research that makes a difference to the communities we serve.

Informed by its Australian and Victorian context and engaged locally in the communities it serves, Deakin promises to advance:

- learning – offer brilliant education where you are and where you want to go
- ideas – make a difference through world-class innovation and research
- value – strengthen our communities, enable our partners and enhance our enterprise
- experience – delight our students, our alumni, our staff and our friends.

For all these reasons, Deakin University occupies an important place in the Australian higher education landscape.

Facts about Deakin

- Deakin was established by the Victorian Parliament in 1974 as a 'university in the Geelong area'. Deakin began teaching on 1 April 1977.
- Deakin University is named after Alfred Deakin, who is often called Australia's Voice of Federation and was Prime Minister three times between 1903 and 1910.
- When it was established, Deakin incorporated two existing Geelong-based institutions – the Geelong State College and the Gordon Institute of Technology.
- Deakin had approximately 2500 students in its first year (1977), rising to 4800 in 1980.
- By 1984, Deakin had consolidated its operations at the Geelong Waurin Ponds Campus.
- Deakin's growth outside Geelong began in 1990 when it amalgamated with the Warrnambool Institute of Advanced Education. This continued in 1991 when it amalgamated with Victoria College, which operated from Burwood, Toorak and Clayton.
- Deakin was one of the first Australian universities to embrace professional and continuing education to corporate clients, establishing Deakin Australia (now DeakinCo) in 1993.
- In the mid-1970s, the disused woolstores on the waterfront in central Geelong was one site considered and rejected for the proposed university that was to become Deakin. In 1996, this idea came to fruition with the opening of the Geelong Waterfront Campus.
- In 2008, the Deakin University School of Medicine opened, becoming Victoria's first rural and regional medical school.
- February 2012 saw the first intake of students in the new Bachelor of Vision Science/Master of Optometry degree.
- In July 2012, Deakin University launched its Strategic Plan – *LIVE the future: Agenda 2020*.
- In response to continued growth in student and staff numbers at Deakin, since 2013 new buildings and major improvements have included:
 - the iconic gateway building at the Melbourne Burwood Campus
 - Centre for Advanced Design Engineering Training at the Geelong Waurin Ponds Campus
 - expansion of student accommodation across all campuses.
- In March 2014, the University declared it would be a smoke-free environment.
- In May 2014, the \$34 million globally unique cutting-edge carbon fibre research and innovation facility, Carbon Nexus, officially opened at the Geelong Waurin Ponds Campus.

- 
- In December 2014, Deakin celebrated its 200 000th graduate.
 - The 2015 Excellence in Research for Australia rankings saw Deakin performing above or well above world standards in 89% of its research.
 - In 2016, the Workplace Gender Equality Agency named Deakin an Employer of Choice for Gender Equality for the tenth year in a row.
 - In January 2016, John Stanhope AM assumed the position of Deakin's Chancellor, taking over from David Morgan who served as Chancellor for 10 years.
 - In April 2016, the Deakin Business School received accreditation by The Association to Advance Collegiate Schools of Business International, the longest serving global accrediting body for business schools in the world.
 - In August 2016, the Deakin University Community Bank® initiative with Bendigo Bank was launched – the first collaboration of its kind between a university and a financial institution.
 - Deakin's recent awards and achievements include:
 - a ranking in the top 2 per cent of universities across major international university ranking systems (the Academic Ranking of World Universities, World University Rankings and QS World University Rankings)
 - Ranked first in Victoria and 5th in Australia for learning satisfaction and first in Victoria and second in Australia for learning resources
 - ranked top three in Australia for graduate employability (The Times Higher Education Global University Employability Ranking 2016).
 - Deakin partnered with FutureLearn to offer full degrees online and short free courses through FutureLearn's global platform
 - In 2017 Deakin University and LeMond Composites joined forces in a \$58m deal to revolutionise the use of carbon fibre across the world
 - In 2017 the Institute for Healthcare Transformation is established, positioning Deakin as one of Australia's premier resources for health systems research.
 - In 2017 The expanded TERI-Deakin Nanobiotech Centre is opened by the Prime Minister.

The Campuses

Deakin is a large university with all the accompanying resources and infrastructure, but its campuses are small enough to retain their own character and sense of community. Each of our campuses offers a unique atmosphere – from the inspiring architecture and bayside appeal of our Geelong Waterfront Campus, to the cafe culture of our Melbourne Burwood Campus, the spectacular coastal location at our Warrnambool Campus or the mix of activity and open space at our Geelong Waurin Ponds Campus.

Melbourne Burwood Campus

This thriving campus is Deakin's largest. Located 15km from the Melbourne CBD, it boasts open and inviting spaces for socialising and studying, innovative architecture and wireless locations. An ambitious building program has resulted in a new complex of spacious modern buildings, including the gateway building situated on Burwood Highway. Refurbishment of older buildings, a library extension, expansion of residential accommodation, a 250-seat lecture theatre and a large landscaped central courtyard have all created a campus that is well-resourced and well-designed. The campus is home to the Deakin University Art Gallery and the Deakin *Motion.Lab*, a state-of-the-art motion capture facility that produces 3D animation and special effects, similar to those used in films such as *Avatar* and *The Lord of the Rings*.

Geelong Waurin Ponds Campus

Deakin's Geelong Waurin Ponds Campus is located 8km from the centre of the historic port city of Geelong, which is 72km south-west of Melbourne. Geelong is Victoria's largest regional city with a population close to 225 000.

Set among extensive landscaped grounds, the Geelong Waurin Ponds Campus boasts hectares of native trees, grassy lawns, lakes and avenues. There are many specialist facilities at this campus, including an outstandingly resourced library, audiovisual production studios, research laboratories and an extensive computer centre. Also located at the Geelong Waurin Ponds Campus is the Geelong Future Economy. The precinct draws on over 15 years of investment in developing the research expertise and facilities in areas such as carbon and ultra-fine fibre, nanotechnology and composite materials, as well as robotics, pattern recognition and data analytics. Some of Australia's, and the world's, leading advanced manufacturers now call the Precinct home.

The Waurin Ponds Estate provides first-class conference and convention facilities.

Geelong Waterfront Campus

The Geelong Waterfront Campus is Deakin's newest campus, located on the beautiful foreshore of Corio Bay in the central business district of Geelong. Originally built in 1893, the historic woolstore building has undergone extensive redevelopment to create a modern and impressive campus centre.

The centrepiece of the campus is Costa Hall, a concert hall of international standard, where a number of university ceremonies, cultural performances and community functions take place, including Deakin's graduation ceremonies.

Also located at this campus is the refurbished Sally Walker Building, which houses the Alfred Deakin Prime Ministerial Library and the Alfred Deakin Research Institute. The Alfred Deakin Research Institute is an interdisciplinary teaching and research centre covering political science, public policy and governance, international relations, globalisation, journalism and communications.

Warrnambool Campus

Warrnambool is the commercial, cultural and educational heart of south-west Victoria. A premier tourist destination, it boasts stunning coastlines, renowned surf beaches and is the state's foremost site for whale watching.

Located 262km from Melbourne, the campus is set on 114 sprawling hectares on the banks of the picturesque Hopkins River. Our lecturers, students and staff at the Warrnambool Campus form a real community, where communication is open and informal.

Campus facilities include a comprehensive library, excellent teaching and learning spaces, a cafe, gymnasium, bookshop and golf course. Located just 5km from the centre of Warrnambool, the campus ensures that Deakin contributes to the vitality of the local community in the tradition of many university cities.

Institute of Koorie Education

Deakin University is proud to have the largest number of Aboriginal and Torres Strait Islander students of any Victorian university.

The Institute of Koorie Education commenced in 1991 and offers programs that are structured around off-campus community-based delivery, supported by on-campus intensive study blocks and complemented by local tutors at regional study centres.

This approach to course delivery promotes access and equity for Indigenous Australian students. Students from all areas of the country – rural, remote and metropolitan, and across all age ranges, particularly mature age – are able to undertake studies without compromising their family and community obligations.

Faculty of Business and Law

Tuesday 3 October 12 pm

Order of Proceedings

The procession will enter at 12 pm.

Guests are asked to stand as the procession enters and to remain standing until the conclusion of the National Anthem.

Master of Ceremonies

Professor Gary Smith, Deputy Vice-Chancellor
Global Engagement

Mace Bearer

Ms Aileen Loi, Faculty General Manager of the
Faculty of Business and Law

Welcome Address

Mr John Stanhope AM, Chancellor

Occasional Address

Ms Jacinta Lane

The Conferring of Awards

Chancellor Presiding, assisted by Professor Chris Hickey,
Chair of Academic Board

The Presentation of Awards

Alfred Deakin Professor Mike Ewing, Executive Dean
of the Faculty of Business and Law

Graduate Response

Ms Bethany Holt

Closing Address

Professor Jane den Hollander AO, President and
Vice-Chancellor

Ms Jacinta Lane

The Occasional Address will be delivered by Ms Jacinta Lane, Special Counsel at KCL Law.

Jacinta Lane is both a graduate and former employee of Deakin University, having gained her Bachelor of Laws at Deakin while working in the School of Engineering and Technology as co-ordinator of the School's off-campus learning program.

Before joining Deakin, Ms Lane was a writer and editor, working variously in the arts and entertainment, furniture manufacturing, and medical imaging industries. For several years, she was the editor of the peer reviewed journal *Radiographer*, the official journal of the Australian Institute of Radiography.

On her graduation from Deakin, Ms Lane decided to specialise in industrial relations law. She accepted a graduate placement at what was then the Australian Industrial Relations Commission and later worked as the Associate to Federal Court Judge and President of the Commission, Justice Geoffrey Giudice.

Ms Lane now has over 13 years' experience in all aspects of workplace and employment law, in both public and private practice. She has served on the committee of the Industrial Relations Society of Victoria, lectured students of business and human resources management on employment law, and appeared in the Federal Court of Australia, the Federal Circuit Court of Australia, the Victorian Civil and Administrative Tribunal, the Magistrate's Court of Victoria and the Fair Work Commission.

Ms Lane joined KCL Law (then called Kliger Partners) in March 2015 and was appointed as a Special Counsel in July 2017. She has a Bachelor of Arts from the University of Melbourne, a Graduate Diploma of Legal Practice from the Australian National University and recently completed an Advanced Diploma of Photography at Photography Studies College, winning the award for excellence in the art major.

Doctoral Degrees

Doctor of Philosophy – PhD

Junaidah Jailani

Whose thesis is entitled:

‘An Investigation into Human Barriers to the Implementation of Sustainability in Commercial Office Buildings.’

Summary

This research highlights the importance of conducting post-occupancy evaluations to value building users’ feedback and investigate contextual factors based on their experiences. These will help designers to better understand their building design, operation, and management strategies for achieving a sustainable building that meets the needs of present and future occupiers.

Principal Supervisor:

Professor Richard Reed

School:

Department of Finance

Akshaya Kamalnath

Whose thesis is entitled:

‘Gender Diversity on Company Boards: A Corporate Law Analysis.’

Summary

This thesis focused the board gender diversity debate on the role of the corporate board. It used two studies to answer whether there was a corporate governance case for board gender diversity. The findings suggested that board gender diversity might indeed be able to enhance corporate governance in a firm. The findings also suggest complementary solutions to strengthening board effectiveness.

Principal Supervisor:

Professor Sandeep Gopalan

School:

Law

Anne Helen Kershaw

Whose thesis is entitled:

‘Coproduction in Museums: A study of Museum Work with Culturally Diverse Communities.’

Summary

This study examined work done by museums and communities to jointly produce exhibitions and public programs. Collaborating with communities is a way for museums to develop authentic and distinctive offerings for visitors. However coproducing with communities is not the manner in which museums have traditionally worked. This research therefore enabled broader insights into collaboration and organisational change.

Principal Supervisor:

Associate Professor Kerrie Bridson

School:

Department of Marketing

Shona Gaye Munro

Whose thesis is entitled:

‘Factors Influencing Learning Transfer in a Supportive Leadership Development Programme.’

Summary

This thesis identified the barriers and enablers to the transfer of learning for front-line police sergeants working to improve their supportive leadership behaviors. The quality of relationships within and surrounding the leadership and coaching intervention was the most influential factor determining the extent to which learning was transferred into workplace practice.

Principal Supervisor:

Professor Andrew Noblet

School:

Management

Thu Huong Nguyen

Whose thesis is entitled:

'The Effects of China's Exports on World Trade.'

Summary

This thesis explores the effects of China's exports on world trade on the intensive and extensive margins, with an emphasis on the product-level competition. The research found strong evidence of China's displacement effect on global textiles and apparel exports, but more pronounced complementarity effect on world agricultural exports.

Principal Supervisor:

Dr Cong Pham

School:

Department of Economics

Dinithi Ruwanga Sunirmitha Pallegedara

Whose thesis is entitled:

'Minimising the Unauthorised Disclosure of Organisational Information via Social Media.'

Summary

This study explored and answered how to minimise the unauthorised disclosure of organisational information via social media. The results of this research developed and delivered a holistic framework that informs the theoretical and practical aspects necessary to address and manage unauthorised disclosure of organisational information via social media.

Principal Supervisor:

Professor Matthew Warren

School:

Department of Information Systems and Business Analytics

Sarah Kimberley Steen

Whose thesis is entitled:

'Greening The Bank's Environment: An Examination of Employees' Recycling Behaviours.'

Summary

The study uncovered a multiplicity of influences and barriers to employees' workplace recycling intentions and behaviours. The findings concluded that employees play a role in shaping workplace recycling and even within a conducive organisational environment, recycling behaviours are dependent on the individual who can either assist or hinder workplace recycling.

Principal Supervisor:

Dr Justine Ferrer

School:

Management

Robin Visser

Whose thesis is entitled:

'The Role of Commercial Diplomacy in Relation to International Trade.'

Summary

This thesis examined how effective commercial diplomacy is in promoting trade by assessing the role of diplomatic offices as intermediaries. Findings pointed to network and matching activities and the depth of offices' resources as crucial to success, especially when communication between firms is hindered by external factors.

Principal Supervisor:

Professor Pasquale Sgro

School:

Department of Economics

Qiuyue Wang

Whose thesis is entitled:

'The Enforcement of Insider Trading Laws in Australia: Reform Proposals.'

Summary:

By reviewing all convicted insider-trading cases from 2004 to the end of 2015, this thesis found that the current sanction regime for insider trading law is inefficient. This thesis proposed a reformed sanction regime for Australian insider trading law.

Principal Supervisor:

Professor Sandeep Gopalan

School:

Law

Doctor of Business Administration – DBA

Matthew Storey

Whose thesis is entitled:

'Factors Affecting the Efficacy of the Commonwealth's Indigenous Business Exemption.'

Summary

The thesis examines the effectiveness of the Commonwealth Government's Indigenous procurement policy. It identifies a number of factors that limited utilisation of this policy and recommended ways to improve the policy.

Principal Supervisor:

Professor Samantha Hepburn

Prizes and Awards

Alfred Deakin Professor

Council established the title of Alfred Deakin Professor to recognise members of Deakin University professoriate who have made a sustained, high level contribution to research at Deakin. The title is the highest honour the University can bestow on a member of academic staff.

The title of Alfred Deakin Professor will be conferred upon Professor Chris Doucouliagos.

Professor Chris Doucouliagos

Professor Chris Doucouliagos joined Deakin as an Associate Lecturer in 1985 and was promoted to Professor in 2004. Professor Doucouliagos led the Department of Economics from 2012-2014 and held the role of Associate Head of School from 2005 – 2007. He is currently Chair in Economics in the Department of Economics.

He has an international reputation as an applied economist and is ranked in the top 1.4% of all authors globally in the RePEC global rankings and ranked 27 in Australasia. In terms of significant citations: Google Scholar = 6121; h-index = 34; i10-index = 55; and Scopus h-index = 22.

Professor Doucouliagos has published in leading journals in economics, health economics, industrial relations, statistics, and political science, e.g. the *Economic Journal* (top 10 in economics), *Industrial Relations* (a top journal in industrial relations), *American Journal of Political Science* (number two in political science), *Statistics in Medicine* (a leading journal in its field), and *Journal of Health Economics* (leading journal in its field). He has had 10 A* Economic journal publications since 2010.

Alongside this, Professor Doucouliagos has been involved in a number of successful grants over the last 10 years including one from the Australian Centre for International Agricultural Research for \$770,000.

Professor Doucouliagos is an outstanding research leader. He led the establishment of The Deakin Laboratory for the Meta-Analysis of Research (DeLMAR) and is a joint Director. This Lab brings together scholars from across Deakin involved with meta-analysis and research synthesis for the development and application of methods that are shared across research problems in the social and natural sciences and for producing evidence-based knowledge that can inform policy across disciplinary boundaries. DeLMAR will be a unique laboratory in Australia, one of only a few such entities globally. It will be officially launched in October 2017.

Professor Doucouliagos' research has been acknowledged internationally; his research on the USA minimum wage cited by the White House and by the US Congressional Budget Office. It formed part of President Obama's drive to increase the Federal minimum wage and contributed to increasing the pay of millions of US workers. His research on foreign aid is influential, receiving hundreds of citations and cited in the *Economist*. He has been instrumental in developing global protocols for conducting and reporting meta-analysis in economics and business. These are now the standard in this literature.

Professor Doucouliagos received the Deakin Business School Outstanding Teaching Award for 2016.

Tuesday 3 October 6 pm

Faculty of Business and Law Faculty of Health

Tuesday 3 October 6 pm

Order of Proceedings

The procession will enter at 6 pm.

Guests are asked to stand as the procession enters and to remain standing until the conclusion of the National Anthem.

Alfred Deakin Professor Mike Ewing, Executive Dean of the Faculty of Business and Law
Professor Brendan Crotty, Executive Dean of the Faculty of Health

Graduate Response

Ms Christine Ivey

Closing Address

Professor Jane den Hollander AO, President and Vice-Chancellor

Mr Dan Monheit

The Occasional Address will be delivered by Mr Dan Monheit, Director of Strategy and Owner at Hardhat Digital.

My first job was at McDonalds. I worked there for four years while I was at high school, and boy did I love that job. It was my first interaction with the workforce, and I took in everything I could, skilling up across kitchen, front counter, drive through, crew training and even kids' birthday parties. In a funny way, McDonalds also ruined me. Learning the 'correct' way to apply cheese to a Quarter Pounder, the 'correct' way to fill a cup with ice and the 'correct' way to mop a kitchen floor left me with the impression that every business had a well-articulated, objectively sound process for doing everything. That was how I thought the 'real world' worked.

Four years later I graduated from Monash University and without a day of creative agency experience, decided to start a creative agency – Hardhat - with my best mate (and fellow McDonalds alum), Justin Kabbani. It was only a matter of weeks before we realised that the 'real world' was nothing like working at McDonalds at all.

Of course, neither of us knew anything about running a business. But as it turned out, nobody else seemed to know anything either. If everyone else was making it up, we concluded, then so could we. And so began our quest to create the exact type of agency that we wanted to turn up at, every single day.

We must have learned a few things since then, because 12 years later we're a team of 40 across Melbourne and Sydney. Our offices include an indoor basketball court, a whisky bar and a couple of adorable dogs. We've picked up a swag of local and international awards, and had the pleasure of working with some incredible brands including Little Creatures, NAB and Deakin University.

I'm constantly learning. Books. Podcasts. Short courses. Talking to strangers.

My role as a strategist is to join dots that other people haven't thought to connect. The broader my perspective, the more dots I have in my field of vision, the more likely I am to find a match.

We've built Hardhat up to a size and scale where we're truly working on 'problems worth solving', helping large scale organisations navigate a world and an audience that's changing before their eyes. We've learned to be OK with what we don't know. In fact, we've learned to embrace it. In today's world, few of us ever get the luxury of getting past 'novice' status, before having to move on to the next thing.

If I'm really honest, the only thing we've ever been truly great at over the years is change.

I've had plenty of fun along the way too. I've been lucky enough to travel the world, including a semester abroad at the University of Miami. I've played basketball for Australia at the Maccabiah Games. I've competed as a long course triathlete, a swing dancer, a break dancer, and a battle MC (still undefeated). I married the love of my life and have two beautiful children. And I get to turn up to an agency that I love to be at, every single day.

Doctoral Degrees

Doctor of Philosophy – PhD

Victoria Brown

Whose thesis is entitled:

‘Transport Interventions and Obesity Prevention: Role, Impact and Cost–Effectiveness.’

Summary

The thesis presents a set of interlinked studies providing an in–depth examination of the role, impact and cost–effectiveness of transport interventions for obesity prevention.

Principal Supervisor:

Professor Rob Carter

School:

Health and Social Development

Joanna Frith Dipnall

Whose thesis is entitled:

‘The Development of a Risk Index for Depression (RID).’

Summary

This thesis developed a novel methodology for a flexible and modular Risk Index for Depression (RID) that blended data mining and machine learning techniques with traditional statistical techniques. This RID shows great potential for future clinical use.

Principal Supervisor:

Professor Julie Pasco

School:

Medicine

Rhonda Mary Garad

Whose thesis is entitled:

‘Health Literacy Driving Health Engagement in the Pluralist Context of Migrant Health in Australia.’

Summary

Migrants have a range of unrecognised health literacy skills that are not adequately understood or addressed within the Australian health sector. This study has shown that migrants have effective compensatory mechanisms that, if supported, may optimise health literacy and engagement and ultimately, may improve health outcomes.

Principal Supervisor:

Professor Richard Osborne

School:

Health and Social Development

Albert Garcia Minambres

Whose thesis is entitled:

‘Identification and Evaluation of Potential Novel Anti–HIV–1 Strategies.’

Summary

Results of this thesis have provided important insights into the biology and immunity of HIV with relevant outcomes in the discovery of novel antiviral therapeutics, as well as, in the impact of current antiretroviral drugs in the HIV recombination rate.

Principal Supervisor:

Professor Johnson Mak

School:

Medicine

Christopher Kintakas

Whose thesis is entitled:

‘ADAMTS5 Expression and Function in Myoblast Fusion and Muscle Regeneration.’

Summary

This research investigated the role of an enzyme called ADAMTS5 in models of skeletal muscle regeneration and muscular dystrophy. This work has led to further investigations to better understand how ADAMTS5 and related proteins may be targeted as a potential treatment for muscular dystrophy.

Principal Supervisor:

Professor Ken Walder

School:

Medicine

Asha Latha Lakkavaram

Whose thesis is entitled:

‘Dissecting the Mechanism of Severe Malaria.’

Summary

This study answered the effect of deletion of CISH gene on the susceptibility to malaria. It charted haematological parameters, cytokine profiles, bone marrow and spleen cell populations. The findings pointed that perturbation of CISH alone is not a major contributor for severe malaria in an acute model of infection.

Principal Supervisor:

Professor Tania De Koning–Ward

School:

Medicine

Doctor of Psychology (Clinical) – DPsych(Clinical)

Michelle Stewart

Whose thesis is entitled:

‘Traumatic Stress in Parents of Children with Autism Spectrum Disorder.’

Summary

A traumatic stress framework was identified as a valid way of conceptualising high levels of parenting stress in a subpopulation of parents raising a child with autism. An association between traumatic stress symptoms and child behaviours that posed a threat to child safety (e.g., elopement, aggression, self–injury) was found.

Principal Supervisor:

Associate Professor David Austin

Closing Address

Professor Jane den Hollander AO, President and
Vice-Chancellor

Alfred Deakin Professor

Council established the title of Alfred Deakin Professor to recognise members of Deakin University professoriate who have made a sustained, high level contribution to research at Deakin. The title is the highest honour the University can bestow on a member of academic staff.

The title of Alfred Deakin Professor will be conferred upon Professor David Watters OBE.

Professor David Watters OBE

The Occasional Address will be delivered by Professor David Watters OBE.

Since 2000, David Watters has been Professor of Surgery at Barwon Health in Geelong, initially with Melbourne University (2000–2010), and now Deakin University since 2011. He was President of the Royal Australasian College of Surgeons in 2015–2016 at a time when the College was active in responding to discrimination, bullying and sexual harassment in surgery. This was also a period in which international collaboration and advocacy achieved the passing of the first World Health Assembly Resolution on Universal access to emergency and essential surgical care.

Professor Watters is a busy general surgeon with clinical interests in general, trauma colorectal and endocrine surgery. His interests and skills in global surgery result from having spent almost 20 years as a surgeon in developing countries, including being Professor of Surgery in Papua New Guinea (1992–2000) as well as academic surgical positions in Hong Kong (1991),

Zambia (1985–1990) and South Africa (1982–1984). He is an Edinburgh University graduate. He is also a fellow of the Edinburgh, Hong Kong, and East Central and Southern Africa Colleges of Surgeons. His research interests include Global Health, trauma, history of surgery, surgical audit and performance, colorectal outcomes and perioperative outcomes. He has over 150 peer reviewed publications and book chapters as well as seven books.

In recognition of his contribution to surgery and surgical training in PNG he was awarded the OBE (2012), and Rotary's Paul Harris Fellowship (2000). As Professor of Surgery in Papua New Guinea in the 1990s, where trauma comprised up to 50% of the surgical caseload, Professor Watters championed the development of subspecialist training for surgeons. Within RACS, he was Director of the Pacific Islands and PNG Tertiary Health Services Programs (2002–2012). He was one of the authors of the Lancet Commission for Global Surgery (2015).

Professor Watters has been one of the key authors of RACS guidelines on Surgical Audit and Peer Review (1st to 4th Edition), Surgical Competence and Performance (1st and 2nd Edition) together with a Multi-Source feedback tool, the Code of Conduct, and Becoming a Competent and Proficient Surgeon. He has taught in the DSTC course since 2000 and is a founding faculty member of the Management of Surgical Emergencies Course (MOSES) run by GSA, and RACS' Competency Standards and Clinical Decision Making Courses. He was elected to College Council in 2007 served as Chair of External Affairs and the International Committee (2007–2012), now called RACS Global Health, before two years as Chair of the Professional Development and Standards Board (2012–2014), Vice-Presidency (2014–2015) and President (2015–2016).

‘Establishing Trust Relationships and Secure Channels in Opportunistic Networks.’

Summary

An effective system with techniques and algorithms that preserve the completeness and integrity of packets in a network and protects Opportunistic Networks from packet dropping and modification attacks has been proposed in this thesis. The techniques and attributes used to create the system involve using Merkle trees, trust, and reputation.

Principal Supervisor:

Associate Professor Robin Ram Mohan Doss

School:

Information Technology

Jacqueline Helga Allen

Whose thesis is entitled:

‘Improving Older People’s Experience in Transitional Care: Co–Design of TRANSITION.’

Summary

A care integration tool TRANSITION was developed to support older people and their families living with chronic illness to transition from hospital to home.

Principal Supervisor:

Professor Trish Livingston

School:

Nursing and Midwifery

Shivapratap Gopakumar

Whose thesis is entitled:

‘Machine Learning in Healthcare: An Investigation into Model Stability.’

Summary

Current machine learning algorithms, when directly applied to medical data, often fail to provide a good understanding of prognosis. This study provides three pathways to make predictive models stable and usable for healthcare. When tested on heart failure and diabetes patients from a local hospital, this study demonstrated 20% improvement over existing methods.

Principal Supervisor:

Dr Truyen Tran

School:

Information Technology

Marwa Hassan Aly Hassan

Whose thesis is entitled:

‘Quantifying Heteroskedasticity Metrics.’

Summary

This study proposes a quantification measure for heteroskedasticity in the time series. Two methods are introduced for quantifying heteroskedasticity: Slope of Local Variance Index (SoLVI) and a statistical divergence method using Bhattacharys coefficient. Both measures show reliability in measuring and quantifying heteroskedasticity in comparison to numerical and hypothesis heteroskedasticity tests.

Principal Supervisor:

Associate Professor Douglas Creighton

Institute:

Institute for Intelligent Systems Research and Innovation

Huu Viet Huynh

Whose thesis is entitled:

'Towards Scalable Bayesian Nonparametric Methods for Data Analytics.'

Summary

Resorting big data to actionable information involves dealing with four dimensions of challenges in big data (called four V's): volume, variety, velocity, veracity. In this study, we seek for novel Bayesian nonparametric models and scalable learning algorithms which can deal with these challenges of the big data era.

Principal Supervisor:

Professor Dinh Phung

School:

School of Information Technology

Jiaojiao Jiang

Whose thesis is entitled:

'Rumor Source Identification in Complex Networks.'

Summary

This thesis conducts an in-depth study on rumor spreading process through a complex network, with the objective to identify the source(s) of the rumor. This work is of fundamental importance for a secure network.

Principal Supervisor:

Dr Shui Yu

School:

School of Information Technology

Erin Marie Landells

Whose thesis is entitled:

'Perceptions of Organizational Politics: The Positives and Negatives.'

Summary

The program of qualitative and quantitative research focused on understanding how employees perceive organizational politics. The key contributions of the research include clearly defined and measurable dimensions of both positive and negative politics, and an understanding of the psychological mechanisms that explain the effects of organizational politics on employee stress and engagement.

Principal Supervisor:

Dr Simon Albrecht

School:

Psychology

Christopher Latella

Whose thesis is entitled:

'Acute Neurophysiological Responses to Resistance-Training: An Investigation into Super-Compensation Theory.'

Summary

Resistance training causes an acute increase in corticospinal excitability in an attempt to attenuate peripheral fatigue, providing evidence that central mechanisms do not limit performance. The results also show a shortened time-course of neurophysiological fatigue and recovery than previously suggested by super-compensation theory.

Principal Supervisor:

Dr Wei-Peng Teo

School:

Exercise and Nutrition Sciences

Yu Qing Low

Whose thesis is entitled:

'The Associations between Sweet Taste Function, Oral Complex Carbohydrate Sensitivity, Dietary Intake Patterns and Body Composition.'

Summary

The studies conducted as part of this thesis contribute to the growing knowledge surrounding sweet taste function and potential existence of complex carbohydrate taste in humans. The findings supports the existence and functionality of complex carbohydrate sensitivity and ad libitum consumption of complex carbohydrate foods, dietary intake and body composition.

Principal Supervisor:

Professor Russell Keast

School:

Exercise and Nutrition Sciences

Hayden Melton

Whose thesis is entitled:

'Empirical Studies of Structural Phenomena using a Curated Corpus of Java Code.'

Summary

Contrary to 50 years' worth of advice in the instructional literature on software design, long cyclic dependencies are found to be widespread in sizeable, curated corpus of real Java software. Among their causes may be overuse of static members, underuse of dependency injection and poor tool support for avoiding them.

Principal Supervisor:

Professor John Grundy

School:

Information Technology

Eliza Grace Miller

Whose thesis is entitled:

'Exercise, Protein and Vitamin D for Type 2 Diabetes Mellitus.'

Summary

This research investigated if lifestyle strategies including caloric restriction or nutritional supplementation with protein and vitamin D, combined with exercise, could provide an additive effect on glycaemic control, insulin sensitivity, body composition and cardiovascular related risk factors compared to exercise alone in older overweight/obese adults with type 2 diabetes.

Principal Supervisor:

Professor Robin Daly

School:

Exercise and Nutrition Sciences

Lisa-Jane Moody

Whose thesis is entitled:

'The Prevalence and Impact of Hearing Impairment in Acute Care.'

Summary

The thesis reports the prevalence and impact of Hearing Impairment on hospitalised adults. Prevalence and severity of hearing impairment were significantly higher than previously reported levels for age matched adults in the Australian population. The results highlighted systemic quality and safety risks for people with hearing impairment in acute care.

Principal Supervisor:

Professor Trisha Dunning

School:

Nursing and Midwifery

Ashleigh Therese Moreland

Whose thesis is entitled:

‘Improving Neural Function in Older Adults Through Targeted Exercise.’

Summary

This thesis explored age-related differences in neurophysiological function, and identified and compared the efficacy and time-course of adaptations following externally-paced strength training, balance and visuomotor training. Older adults were shown to have functional deficits compared to young adults, but the interventions induced neuroplasticity and resulted in improved functional outcomes.

Principal Supervisor:

Professor Robin Daly

School:

Exercise and Nutrition Sciences

Siobhan Anne O’Halloran

Whose thesis is entitled:

‘Dietary Sources and Assessment of Sodium and Potassium Intakes in Australian Preschool Aged Children.’

Summary

This research showed that Australian preschool children are consuming high amounts of sodium which exceeded recommendations, driven by the consumption of processed foods. In addition, preschool children consumed low amounts of vegetables leading to potassium intakes which were below recommendations and a molar Na:K ratio above the WHO recommendation.

Principal Supervisor:

Professor Caryl Nowson

School:

Exercise and Nutrition Sciences

Kinga Pemo

Whose thesis is entitled:

‘Exploration of Breastfeeding Promotion and Practices in Bhutan.’

Summary

Lack of breastfeeding information and support from health professionals during pregnancy and following birth led to Bhutanese women having limited understanding of the true meaning of exclusive breastfeeding. Furthermore, they adopted cultural and traditional practices in the belief that such practices would not impede the exclusivity of breastfeeding. All the health professionals reported staff shortages and heavy workloads, in particular, midwives, reported a lack of ongoing professional development as factors that prevented them from providing breastfeeding information and support.

Principal Supervisor:

Associate Professor Diane Phillips

School:

School of Nursing and Midwifery

Sirinya Phulkerd

Whose thesis is entitled:

‘Analysis of Policy Implementation for Healthier Food Environments in Thailand.’

Summary

This study provided better understanding of the extent of implementation of the Thai Government’s food environment policies, and barriers and facilitators to implementation. It found that implementing best practice policies is necessary, but availability and adequacy of infrastructure to support their implementation is crucial. It provided recommendations for enhancing the government implementation.

Principal Supervisor:

Professor Mark Lawrence

School:

Exercise and Nutrition Sciences

Doctor of Psychology (Clinical) – DPsych(Clin)

David Hilton Demmer

Whose thesis is entitled:

‘Exploring Gender Differences in the Prevalence of Childhood Externalising Disorders.’

Summary

Results demonstrated that externalising disorders are more prevalent in boys than girls, except for Oppositional Defiant Disorder in Non-Western countries, where no gender difference was found. Results also found that parenting and diagnosis did not impact this gender imbalance, however there appears a potential for ADHD to be misdiagnosed in both genders.

Principal Supervisor:

Dr Merrilyn Hooley

School:

Psychology

Laura Marie Di Manno

Whose thesis is entitled:

‘Variation in Depression Outcomes among Young People from Dissolved Families.’

Summary

This thesis adds to literature examining individual differences that account for diversity in depressive outcomes following parental divorce. Longitudinal data were used to assess, of those who experience parental divorce, who is most at risk for depressive outcomes and when such knowledge may inform appropriately targeted prevention and intervention strategies

Principal Supervisor:

Dr Jacqui Macdonald

School:

Psychology

Leigh Davis Elliott

Whose thesis is entitled:

‘Improving Social and Behavioural Functioning in Children with Autism Spectrum Disorder: a Videogame Skills Based Feasibility Trial.’

Summary

This thesis assessed the feasibility of using specifically designed video-games to improve functioning in children with autism spectrum disorder. The findings provide preliminary evidence supporting the use of Whiz Kid Games (a freely accessible, online, video-game based intervention) for improving both social and behavioural functioning in children aged 6–12 who have been diagnosed with autism.

Principal Supervisor:

Associate Professor David Austin

School:

Psychology

Doctor of Psychology (Health) – DPsych(Health)

Lauren Jade Bruce

Whose thesis is entitled:

‘Intuitive Eating in Relation to Other Eating Patterns and Psychosocial Correlates.’

Summary

This thesis examines the comparison between aspects of intuitive eating and disordered eating, and the psychosocial factors that are associated with women’s engagement in these eating patterns, demonstrated that some aspects of intuitive eating overlap with disordered eating. Findings have potential implications for interventions designed to prevent and/or reduce disordered eating.

Principal Supervisor:

Professor Lina Ricciardelli

School:

Psychology

Laura Elizabeth Prendergast

Whose thesis is entitled:

'Longitudinal Outcomes of Early Sexual Initiation: Australian and Cross-National Findings.'

Summary

This thesis identified prevalence and outcomes of early sex at odds with health policy objectives of Victoria, Australia and Washington, United States. Early sex in Victoria predicted risky sex, substance use and antisocial behaviour in adolescence. Some outcomes remained significant into young adulthood, identifying early sex as an indicator of risky trajectories.

Prizes and Awards

Alfred Deakin Professor

Council established the title of Alfred Deakin Professor to recognise members of Deakin University professoriate who have made a sustained, high level contribution to research at Deakin. The title is the highest honour the University can bestow on a member of academic staff.

The title of Alfred Deakin Professor will be conferred upon Professor Tracey Bucknall.

Professor Tracey Bucknall

Professor Tracey Bucknall joined Deakin as a joint University-Cabrini Health appointment in 2007. In 2013 she was appointed Associate Head of School (Research), School of Nursing and Midwifery.

Professor Bucknall is internationally recognised as a decision scientist. She was one of the first to study nurses' decision making and her PhD research provided foundational knowledge on social and environment influences on practice and the subsequent impact on patient outcomes. For the past decade she has held joint clinical academic appointments that have allowed her to identify gaps in practice and target them through innovative research and teaching.

Professor Bucknall has published over 125 journal papers, 1 edited book, 12 book chapters, and 26 research reports. She has an h-index of 23, which is outstanding for a nursing academic based on international comparisons. She received her first NHMRC grant as an early career researcher in 2000, as a member of the first ever nursing-only Chief Investigator team to be awarded an NHMRC project grant. Over the last five years she has led two Category 1 grants and been Chief Investigator in 5 others.

She has obtained more than \$11 million in competitive research funding, including \$6.3 million in external funding and \$2.4 million in research infrastructure support as a Chief Investigator. This success has been achieved despite most ARC and NHMRC grant rounds including only one nursing grant per round. Since 2001, she has delivered more than 180 presentations nationally and internationally on clinical decision making, patient safety and knowledge translation, including 90 invited presentations. She has supervised or co-supervised research training for a total of 33 nursing research students.

Professor Bucknall has been a leader in curriculum development at both undergraduate and postgraduate levels. In 2008 she was appointed as HDR Coordinator and Chair of the School of Nursing and Midwifery Research and Research Training Committee. She continues to chair the Research Training Committee but stepped down as HDR Coordinator in 2013 to take up the role of Associate Head of School (Research).

Her leadership of the school research agenda and development has included establishing linkages with international and national researchers, successfully applying for Thinker in Residence funding, initiating the Critical Conversations for HDR Students program, and developing retreats for staff and research promotion activities for early and mid-career researchers. In 2013, she led a submission for the School to become a preferred research provider for the Australian Commission of Quality and Safety in Health Care. This has since resulted in numerous successful tenders for researchers in the Centre for Quality and Patient Safety (QPS) Strategic Research Centre.

Professor Bucknall was one of seven founding members of QPS. She has actively built strategic collaborations that have raised Deakin's international and national reputation. She holds three honorary appointments; at Bangor University, Wales; The University of Southern Denmark, Denmark; and Monash University. In 2015 she led a cross-faculty collaboration between the School of Engineering and the School of Nursing and Midwifery in the development of a patent for a haptic Virtual Reality Intrapartum Touch Trainer (VeRITy). A haptic model for cardio-pulmonary resuscitation training has since been developed and is ready for testing and marketing. She has also made a significant contribution to Deakin's nursing and midwifery rating in the Excellence in Research Australia (ERA), which improved to 4 (above world standard), narrowly missing out on a rating of 5 in ERA 2015.

More recently she has led a strategic Faculty of Health partnership with the Baker Heart and Diabetes Institute. As an Alfred Health research leader, she is a council member for the Alfred Medical Research and Education Precinct. She is also an active contributor to Monash Partners, one of four Australian Advanced Health Research and Translation Centres recognised by the NHMRC in 2015 as leaders in the translation of medical research to improve patient care.

Professor Bucknall has been a reviewer for ARC and NHMRC grants since 2000 and has served as a Grant Review Panel member on NHMRC Project, Translation of Research into Practice (TRIP) Fellowship and Partnership Project Schemes continuously since 2010. From 2004 -2014 Professor Bucknall served as a founding editor of Worldviews on Evidence Based Nursing, which was the highest ranked international nursing journal in 2010 and again in 2014. She has also served on a number of national advisory committees, including the Australian Commission of Quality and Safety in Health Care (ACQSHC) Technical Advisory Panel that developed the Australian Health Care Goals, the ACSQHC Recognising and Responding to Clinical Deterioration Advisory Committee, and the ACSQHC Clinical Communication Advisory Committee. She was a member of the Research Forum for the National Review of Nursing Education. In 2016 she was appointed as a Board Director of Royal Freemasons, an aged care provider with 3000 customers at home and in independent living units and residential care.

Professor Bucknall has been recognised as a leader in academic nursing nationally and internationally for a number of years. She has an excellent publication and grant record and has made significant contributions to a number of national committees. She has made an outstanding contribution to the development of nursing research at Deakin and has been active in teaching and learning in the School of Nursing.

Faculty of Science, Engineering and Built Environment

Wednesday 4 October 6 pm

Order of Proceedings

The procession will enter at 6 pm.

Guests are asked to stand as the procession enters and to remain standing until the conclusion of the National Anthem.

Master of Ceremonies

Professor Liz Johnson, Pro Vice-Chancellor
Teaching and Learning

Mace Bearer

Mr Darren Taylor, Faculty General Manager of the
Faculty of Science, Engineering and Built Environment

Welcome Address

Mr Peter Meehan, Deputy Chancellor

Occasional Address

Mr Nino Ficca

The Conferring of Awards

Deputy Chancellor Presiding, assisted by
Associate Professor Jo Coldwell-Neilson,
Deputy Chair of Academic Board

The Presentation of Awards

Professor Trevor Day, Executive Dean of the Faculty of
Science, Engineering and Built Environment

Graduate Response

Ms Tegan Haberecht

Closing Address

Professor Jane den Hollander AO, President and
Vice-Chancellor

Mr Nino Ficca

The Occasional Address will be delivered by Mr Nino Ficca, Managing Director, AusNet Services.

Since graduating with a Bachelor of Engineering (Electrical - Honours) at Deakin University, AusNet Services' Managing Director, Nino Ficca has spent more than 30 years dedicated to the energy industry. To further enhance his management skills, in 1994, Nino completed a Graduate Diploma in Management at Deakin University and in 2008; he completed the Advanced Management Program at Harvard University.

Earlier in his career, Mr Ficca held a number of engineering roles from design project management to senior leadership positions for international companies. In the 1990s, he played an important role in the privatisation of Victorian utilities and the development of the subsequent energy regulations. In the 2000s, he played a pivotal role in the acquisition of TXU, an American energy company, for SPI PowerNet, a Singaporean energy company.

As Managing Director of AusNet Services, an ASX listed company with Singapore Power and State Grid Corporation of China as significant investors, Mr Ficca has overall regulatory, operational, commercial and financial responsibility for an \$11bn electricity and gas network that keeps more than 1.3 million customers warm in winter and cool in summer.

Historically, the energy industry has been characterised as relatively stable and predictable. However, the past decade has seen considerable change due to energy security challenges, the rise of renewable energy and associated technologies, including solar and battery technology, greater customer expectations and regulatory advances. In response, Mr Ficca is guiding AusNet Services through this new energy world with an emphasis on safety, diversity, placing customers at the forefront of everything and developing long lasting relationships with regulators, governments and industry partners. To do this, Mr Ficca champions initiatives such as increasing female participation by promoting programs such as the 'Women in Power Engineering' scholarships in partnership with Deakin University, a zero tolerance for unsafe behaviours and innovative energy solutions for customers.

Throughout his career, Mr Ficca's achievements include leading the company through an initial public offering, a number of successful acquisitions and award winning debt refinancing arrangements while keeping the company's A-range credit rating.

Mr Ficca also contributes to the energy industry as Chair of the Deakin University Engineering Advisory Board and Energy Networks Association, and as a Director of CIGRE Australia.

Doctoral Degrees

Doctor of Philosophy – PhD

Amir Abdollahpoor

Whose thesis is entitled:

‘Crashworthiness Study on Hot Stamping Components with Tailored Mechanical Properties.’

Summary

This thesis has shown how the hot sheet metal forming process can be used to achieve vehicle structural parts with multiple graded properties using sheet metal carburization. The strategy increases the flexibility of structural part design to improve vehicles crashworthiness and consequently improves the vehicle structural safety.

Principal Supervisor:

Associate Professor Bernard Rolfe

School:

Engineering

Danah Tawfiq Hasan Al-Masri

Whose thesis is entitled:

‘The Design and Use of Redox Active Ionic Electrolytes for Thermal Energy Harvesting.’

Summary

In this thesis, the thermoelectrochemical cell (TEC), a device capable of converting heat to electricity, was fabricated and tested. The liquid-based device was reported as a cheaper and more widely applicable alternative to the commercially available semi-conductor thermoelectrics. The performance of the TEC was enhanced by incorporating low-viscosity electrolytes and carbon-based electrode material.

Principal Supervisor:

Associate Professor Jenny Pringle

Institute:

Institute for Frontier Materials

Murugesan Annasamy

Whose thesis is entitled:

‘Static and Dynamic Recrystallization Behaviour of High Entropy Alloys.’

Summary

This thesis studied the optimum processing conditions for static and dynamic recrystallization behaviour of Al_xCoCrFeNi High Entropy Alloys. As a result of recrystallization, refined microstructure was obtained and the mechanical properties were improved in Al_xCoCrFeNi HEA. These findings suggest that, HEAs can be used in high temperature structural applications.

Principal Supervisor:

Dr Daniel Fabijanic

Co-Supervisor:

Dr Daniel Fabijanic

Institute:

Institute for Frontier Materials

Asma Aziz

Whose thesis is entitled:

‘Frequency Regulation in Wind Integrated Power System.’

Summary

This thesis has broader implications in terms of improvement in wind generation modelling which is a current requirement for prospective operational planning tools for future grid. This thesis mainly deals with various modelling issues encountered in wind integrated power system for frequency regulation. This thesis provides development of grid code compatible, frequency responsive type 4 wind turbine generator system and analysis of the wind energy systems frequency regulation capability and their integration impact on interconnected power system.

Principal Supervisor:

Associate Professor Aman Maung Than Oo

School:

Engineering

Khashayar Badii

Whose thesis is entitled:

‘Hybrid Mathematical Modelling and Optimisation for Reaction Mechanisms of Thermal Stabilisation in Carbon Fibre Production Line.’

Summary

The aim of this study is to develop a hybrid mathematical model to investigate the chemical reaction mechanisms of PAN (polyacrylonitrile) thermal oxidative stabilisation process in carbon fibre production line. The model can estimate the parameters of chemical kinetics and predict the specifications of oxidised precursor for energy optimisation purposes.

Principal Supervisor:

Dr Hamid Khayyam

Institute:

Institute for Frontier Materials

Niki Burns

Whose thesis is entitled:

‘Identification and Isolation of Drugs in Complex Samples.’

Summary

This research developed platform technologies for forensic applications in drug detection and industrial pharmaceutical processing streams.

Principal Supervisor:

Dr Xavier Conlan

School:

Life and Environmental Sciences

Antoine Marie Dujon

Whose thesis is entitled:

‘New Technologies Reveal Insights on the Behaviour of Marine Vertebrates.’

Summary

New insights on the migration strategies of marine species were obtained by utilising Fastloc–GPS tracking and drones. The value of these two emerging technologies to monitor elusive marine species was demonstrated by investigating and reporting on the small–scale movement patterns of sea turtles and the energy expenditure of whales.

Principal Supervisor:

Alfred Deakin Professor Graeme Hays

School:

Life and Environmental Sciences

Linpeng Fan

Whose thesis is entitled:

‘Engineering of Silk Fibroin: from Nanofibers to Nanofibrous Scaffolds for Biomedical Application.’

Summary

Nanofibers and nanofibrous scaffolds with hierarchical aligned structures are constructed by self–assembly and phase separation. As–prepared nanofibrous materials show a specifically high capacity in cell capture and promoting proliferation of cells. More interestingly, the nanofibrous materials can direct HUVECs to assemble into vessel–like structure and 3D growth of DRG neurites.

Principal Supervisor:

Alfred Deakin Professor Xungai Wang

Institute:

Institute for Frontier Materials

Gelayol Golkarnarenji

Whose thesis is entitled:

'Predictive Modelling and Multi-Objective Optimisation in Thermal Stabilisation Process of Carbon Fibre.'

Summary

The aim of this thesis is to develop a predictive model for energy consumption in stabilization process of carbon fiber production under given range of constraints such as fibre physical and mechanical properties, while controlling the stochastic defects.

Principal Supervisor:

Dr Hamid Khayyam

Institute:

Institute for Frontier Materials

Yuanyuan Guo

Whose thesis is entitled:

'Development of Novel High Performance Protein Materials as Bioadhesives.'

Summary

The study demonstrated novel approaches to incorporate high wet-resistant adhesion and porosity into a bioadhesive, which showed excellent adhesion and ability to form porous structure at micron scale with biocompatibility, highlighting the significance of the bioadhesive for a range of wound healing and tissue engineering applications.

Principal Supervisor:

Dr Mary She

Institute:

Institute for Frontier Materials

Ninghui Han

Whose thesis is entitled:

'A New Angle on the Coalescence of Drops.'

Summary

This project has developed a new experiment with single bubbles rising vertically to non-horizontal solid surface so the collision occurs at oblique angles. The true thin film deformation details were obtained and the effects of parameters including liquid viscosity, salt concentration, inclination value, bubble size and solid surface hydrophobicity on the thin film drainage process have been studied.

Principal Supervisor:

Dr Wren Greene

Institute:

Institute for Frontier Materials

Emily Maria Kerr

Whose thesis is entitled:

'Electrochemical and Luminescence Studies of Ruthenium and Iridium Metal Chelates.'

Summary

This thesis focuses on the evaluation of various chemical labels which each emit a specific colour of light, when triggered by an electrical stimulus. These labels can be employed in diagnostic analyses and luminescent displays.

Principal Supervisor:

Professor Paul Francis

School:

Life and Environmental Sciences

AmirMahyar Khorasani

Whose thesis is entitled:

'The Selected Laser Melting Production and Subsequent Post-Processing of Ti-6Al-4V Prosthetic Acetabular.'

Summary

This thesis answered problems in the manufacturing of surgical implant for a hip replacement when using additive manufacturing. In this research, the production of the prosthetic hip has been carried out. The findings pointed to improving the quality of produced customized prosthetic implants and increasing longevity and accuracy.

Principal Supervisor:

Professor Ian Gibson

School:

Engineering

Andreas Kupke

Whose thesis is entitled:

'Effect of the Microstructure on the Unloading Characteristics of DP steel.'

Summary

This thesis experimentally investigates the relationship between microstructure and unloading behaviour of dual phase steels. The findings of this work have improved the understanding of the springback mechanics in these steels and enables optimisation of future alloy design.

Principal Supervisor:

Dr Matthias Weiss

Co-Supervisor:

Alfred Deakin Professor Peter Hodgson

Institute:

Institute for Frontier Materials

Bao Lin

Whose thesis is entitled:

'Design and Characterisation of Novel Nano-Porous Metal Framework by Advanced De-Alloying Strategies.'

Summary

This thesis revealed the kinetics of brass de-alloying in alkali, which filled the gaps in the research area of de-alloying with alkali. In addition, this thesis has created physical de-alloying methods for the first, which provides a novel route for achieving the de-alloyed porous material.

Principal Supervisor:

Dr Ludovic Dumeé

Institute:

Institute for Frontier Materials

Liam David Lyons

Whose thesis is entitled:

'Enhancing Engineering Education through Remote Laboratories.'

Summary

This research determined the engagement levels and learning experience of students in a unique remote laboratory for engineering students. The findings determined the perceived learning objective of students in the laboratory, as well as perception of realism of equipment in a remote educational environment.

Principal Supervisor:

Associate Professor Matthew Joordens

School:

Engineering

Leila Mahmoudi Farahani

Whose thesis is entitled:

‘Australian Neighbour(less)hoods: Investigating the Role of the Built Environment in Encouraging a Sense of Community and Social Life in Low-density Suburbia.’

Summary

This thesis has sought to provide insight into the relationships between the physical fabric of suburbs and how to foster a sense of community among the residents. The study aimed to identify the physical qualities of the built environment that contribute to a sense of community and social life in suburbia.

Principal Supervisor:

Dr David Beynon

School:

Architecture and Built Environment

Shashank Masaldan

Whose thesis is entitled:

‘Investigating Metal Aberrations in Cellular Senescence.’

Summary

This thesis explored perturbations in iron and copper homeostasis in senescent cells that contribute to age-associated disease and dysfunction. Altered metal regulation was associated with impaired cellular autophagy and resulted in extreme resistance to ferroptosis, a novel iron mediated cell death process linked to various pathologies.

Principal Supervisor:

Dr Michael Cater

School:

Life and Environmental Sciences

Bahareh Motamed

Whose thesis is entitled:

‘Colourful Language: an Inquiry into Colour Space and Architectural Choices.’

Summary

This thesis answered an apparently straightforward but previously largely unconsidered question: ‘what informs architects’ colour use?’ Although the initial focus was on the role of education and culture, these turned out to be amongst a very large pool of variables that influence decision making during design. While the findings pointed to the influence of cultural background, demographics, education and, of course, design context, they showed rather surprisingly that architects’ personal colour preferences had by far the greatest influence.

Principal Supervisor:

Associate Professor Richard Tucker

School:

Architecture and Built Environment

Seyedeh Azam Oroumei

Whose thesis is entitled:

‘Processing, Manufacturing, and Characterisation of Lignin-Derived Precursor and Carbon Fibres.’

Summary

This thesis strengthened the underpinning knowledge of a bio-renewable material as an alternative carbon fibre precursor towards low-cost production of carbon fibre. It created a foundation for the development of lignin precursor fibres and process routes to manufacturing the next generation of sustainable carbon fibres.

Principal Supervisor:

Dr Mino Naebe

Institute:

Institute for Frontier Materials

Aditya Vivek Ponskhe

Whose thesis is entitled:

‘Joint Effects of Selective Mating and Ecology on the Persistence of Polymorphism and the Divergence of Sexually Selected Traits.’

Summary

The aim of this thesis is to understand how mate choice interacts with various ecological processes and affect the persistence of polymorphism and divergence in sexually selected traits. Identifying specific conditions which determine whether or not a polymorphism in sexual traits are likely to persist or are likely to result in divergent fixation and loss.

Principal Supervisor:

Professor John Endler

School:

Life and Environmental Sciences

Manikandakumar Shunmugavel

Whose thesis is entitled:

‘Machinability Studies of Selective Laser Melted Titanium Alloy Ti-6Al-4V.’

Summary

This thesis focuses on exploring the mechanical properties and machinability characteristics of Selective Laser Melted titanium alloy Ti-6Al-4V. It provides insights on how machining and additive manufacturing can be used collaboratively to improve the productivity and product quality of end titanium components.

Principal Supervisor:

Dr Ashwin Polishetty

School:

Engineering

Kenneth Taylor

Whose thesis is entitled:

‘Landscape, Culture and Heritage. Changing Perspectives in an Asian Context.’

Summary

Scholarly challenges emerged in the late 1980s/early 1990s to the concept of heritage focusing on famous monuments and sites. Critical to this shift in thinking was the role of cultural landscapes in shaping people’s identity and place attachment. The research inquiry tracks these changes with some reference to Asia.

Principal Supervisor:

Professor David Jones

School:

Architecture and Built Environment

Shilpi Tewari

Whose thesis is entitled:

‘Changing Neighbourhood Character in Melbourne – Multiculturalism in Planning.’

Summary

This thesis indicates that the local planning authorities as well as private-developers have continuously ignored cultural diversity in designing new suburbs of Melbourne such as Point Cook, Craigieburn and Pakenham however residents’ views on their neighbourhoods are overwhelmingly positive, and the thesis explores the reasons for this apparent conundrum.

Principal Supervisor:

Dr David Beynon

School:

Architecture and Built Environment

**Marinus Henricus Jacobus
Van Der Sluijs**

Whose thesis is entitled:

‘Improving the Quality of Australian Cotton During Processing.’

Summary

This research has provided useful information regarding the effect of harvesting and ginning method, seed cotton moisture during harvesting, machine set up during harvesting and blending at the gin, in a high production environment, on fibre, yarn and fabric quality as well as processing performance. Through publication in international and domestic journals, conference papers and industry forums, the results of this research will provide information to the industry, which will result in the improvement of industry practices, leading to consistency in quality and quantity, which will be reflected in increased demand and increased profitability for the grower.

Principal Supervisor:

Alfred Deakin Professor Xungai Wang

Institute:

Institute for Frontier Materials

Arangarajan Vinayagam

Whose thesis is entitled:

‘Power Quality Analysis and Automatic Intelligent Control Strategy for Solar PV Microgrid.’

Summary

This thesis focused on quantification of the power quality issues in a solar photovoltaic based microgrid network through the simulation and experimental approach. PSO based optimization control strategy was also implemented to further improve the power quality factors in the Microgrid network.

Principal Supervisor:

Dr Sui Yang Khoo

Co-Supervisor:

Professor Alex Stojcevski

School:

Engineering

Gareth Liam Williams

Whose thesis is entitled:

‘Dynamic Estimation of Human Energy Expenditure with Wearable Sensors.’

Summary

This thesis investigated energy expenditure estimation using inertial measurement units, electromyography and O2 Gas Mask sensors whilst undergoing motion. Further investigations included the precision measurement of IMUs in order to achieve extremely accurate energy estimation calculations using an experimental Dual-Kalman Filter and limb length estimation using entropy based methods.

Principal Supervisor:

Associate Professor Pubudu Pathirana

School:

Engineering

Omid Zabihi

Whose thesis is entitled:

‘Chemically Modified Nanoparticles towards Multifunctional High-Performance Polymer Nanocomposites.’

Summary

This thesis addressed problems and challenges in production of high-performance polymer composites. It described how interfacial properties affect structural composites. The findings paved the way for production of high-performance structural composites.

Principal Supervisor:

Dr Minoo Naebe

Institute:

Institute for Frontier Materials

Xinchu Zhao

Whose thesis is entitled:

'1 Gold Nanoparticles Based DNA Detection in Microfluidics.'

Summary

This thesis shows gold nanoparticle based DNA detection in microfluidics has the potential to revolutionize the early detection of infectious diseases. Taking advantage of gold nanoparticles, the signal of binding event was enhanced and an insight into the interactions of the interface was provided.

Principal Supervisor:

Professor Lingxue Kong

Institute:

Institute for Frontier Materials

Mengqi Zhou

Whose thesis is entitled:

'Electrode Materials for Supercapacitors Operating with Electrolytes Containing Potassium Ions.'

Summary

This thesis investigated the specific electrode materials which are titanium dioxide, vanadium oxynitride, tungsten oxynitride, graphite and activated carbon operating in three types of potassium ion based electrolytes in supercapacitors.

Principal Supervisor:

Alfred Deakin Professor Ying (Ian) Chen

Institute:

Institute for Frontier Materials

Faculty of Science, Engineering and Built Environment

Master Degrees

Master of Engineering by Research – MEng(Research)

Wenbing Li

Whose thesis is entitled:

'Plasmonics Substrates for Surface Enhanced Raman Scattering.'

Summary

Designed and fabricated plasmonic substrates for surface enhanced Raman scattering and approached improved sensitivity for detection of molecules.

Principal Supervisor:

Alfred Deakin Professor Matthew Barnett

Institute:

Institute for Frontier Materials

Master of Science By Research – MSc(Research)

Ramiza Anwar

Whose thesis is entitled:

'Role of Abscisic Acid (ABA) and Mesoporous Silica Nanoparticles (MSNs) to Alleviate Drought Stress.'

Summary

Agrochemicals have a pronounced influence on modern agriculture and the current study highlighted the impact of ABA on plant growth and development and secondly, mesoporous silica nanoparticles, irrespective of their role in molecular delivery, alleviated drought stress, a finding that may be utilized to improve plant health and yield.

Thursday 5 October 12 pm

Faculty of Arts and Education

Thursday 5 October 12 pm

Order of Proceedings

The procession will enter at 12 pm.

Guests are asked to stand as the procession enters and to remain standing until the conclusion of the National Anthem.

Master of Ceremonies

Mr Kean Selway, Chief Operating Officer

Mace Bearer

Ms Alice Di Pasquale, Faculty General Manager of the Faculty of Health and University Council Member

Welcome Address

Mr Peter Meehan, Deputy Chancellor

Occasional Address

Mr Paul Tobias

The Conferring of Awards

Deputy Chancellor Presiding, assisted by
Professor Chris Hickey, Chair of Academic Board

The Presentation of Awards

Professor Brenda Cherednichenko, Executive Dean of
the Faculty of Arts and Education

Graduate Response

Ms Rebecca Callanan

Closing Address

Professor Jane den Hollander AO, President and
Vice-Chancellor

Award of Honorary Degree

The honorary degree of Deakin Honorary Doctorate will be conferred upon Mr Paul Tobias for outstanding contribution to promoting equality, tolerance and diversity in boys' education.

Mr Paul Tobias

The Occasional address will be delivered by Mr Paul Tobias.

Paul Tobias was born in Melbourne Australia in 1955 and was educated at Christian Brothers College, St Kilda. He attended Monash University where he completed a Bachelor of Arts majoring in English in 1975. After completing a Diploma of Education and travelling overseas he commenced his teaching career in 1977. He continued to work and study for much of his education career completing a Diploma of Religious Education from the National Pastoral Institute, a Bachelor of Education from Monash University, a Diploma of Educational Administration from Melbourne University and a Masters of Educational Administration from the University of New England.

His teaching career commenced in Melbourne and in the early years of his career he held a number of leadership positions prior to being appointed as Deputy Principal at St Joseph's Christian Brothers College Warrnambool. He held this position

in a number of regional Catholic secondary Colleges over a fourteen year period before being appointed the principal of St Joseph's College in 2000.

Mr Tobias was named the Herald Sun Secondary Principal of the Year in 2008 for his work at St Joseph's Geelong. Some of this work had been around uniting and building a school community which had been damaged as a consequence of sexual abuse. He made a public apology for this abuse in his first year as principal and worked with victims over the next 17 years. He made a formal submission to the Royal Commission into Child Abuse in 2016 which received widespread media attention.

Mr Tobias has been a strong advocate of those in the developing world and has overseen a number of aid projects in East Africa. He was briefly the acting principal of a large boarding and day school in Arusha, Tanzania. He was a founding board member of the Geelong Technical College and has represented the Catholic sector on a number of local committees.

Much of Mr Tobias' work as principal involved changing the culture of the organization and managing change. He established a homophobia taskforce to address the issue of homophobic bullying and has been outspoken about the importance of ensuring all schools are safe and inclusive places of learning. In 2016 the St Joseph's community honoured Mr Tobias' legacy with the opening of the Paul Tobias Centre which amalgamated and accommodated all student services.

He is currently the Co- Chair of the Edmund Rice Education Australia working party developing resources for Catholic schools dealing with issues of inclusion and respectful relationships for LGBTI students. For the last two years he has represented the Catholic Secondary Principals of Victoria on the Catholic Education Melbourne working party to promote and encourage Safe and Supportive Learning Communities.

Mr Tobias retired at the conclusion of the 2016 school year but continues to remain involved in Education as a consultant and mentor.

Doctoral Degrees

Doctor of Philosophy – PhD

Wendy Jennifer Beatty

Whose thesis is entitled:

‘Contemporary Photographic Landscape Practices and the Affective Gaze.’

Summary:

This study reconfigures photographic representational approaches to ‘landscape’ through concepts of agency, ecological and body-centred creative processes. The series of Tasmanian landscape photographs produced implicitly communicates an experimental, visual and affective response to place.

Principal Supervisor:

Associate Professor Dirk De Bruyn

School:

Communication and Creative Arts

Megan Gaye Beckwith

Whose thesis is entitled:

‘Perceptions and Dimensions: towards a Stereoscopic Choreography.’

Summary:

This research explored the use of 3D stereoscopic illusions in live dance performance. It examined the practical and philosophical implications of using stereoscopic projection technologies and 3D animated objects as dynamic, interactive components of a choreographic practice.

Principal Supervisor:

Dr Glenn D’Cruz

School:

Communication and Creative Arts

Rosemary Louise Buchanek

Whose thesis is entitled:

‘Negotiating Differences: Stimulating Creative Geographical Thinking through Critical Engagement.’

Summary:

This thesis explored how differences of opinion, associated with student’s perspectives about earthquakes’ impacts, influenced the level of geographical thinking displayed during group conversation. The findings formulated a Model for Geographical Reasoning which could be used by teachers to support their translation of the concepts and skills outlined in the Australian Curriculum for Geography into their pedagogical decisions.

Principal Supervisor:

Dr Gaye Williams

School:

Education

Mitchell David Cunningham

Whose thesis is entitled:

‘Performing the ‘Fiction–Writer’s Reader’: David Foster Wallace and Critical Rhetoric.’

Summary:

The study answered questions about psychoanalysis and reader–response theory in contemporary American fiction. It modelled empirical and hypothetical readers in the works of David Foster Wallace, and challenged assumptions about psychoanalysis in Wallace’s critical reception. The findings point to new and strange ways of understanding the ‘author–reader relationship’ in fiction.

Principal Supervisor:

Associate Professor Geoff Boucher

School:

Communication and Creative Arts

Zoe Dzunko

Whose thesis is entitled:

'On the Edge: Tracing the Liminal in Labour Narratives.'

Summary:

This study considered instances of liminality within contemporary labour poems and songs. Focusing on liminal phases as instances of allegorical truth, it demonstrated how inverse spaces of representation might reveal the social conditions underlying narratives of work, while proposing a model for understanding depictions of daily labour in creative texts.

Principal Supervisor:

Dr Cassandra Atherton

School:

Communication and Creative Arts

Brandi Nichole Fox

Whose thesis is entitled:

'Intercultural Subjectivities of the Everyday: A Study of Australian School Kids.'

Summary:

This three-year longitudinal study of kids aged 9 to 12 reveals how interculturality and subjectivities are shaped and negotiated simultaneously in informal spaces through cultural knowledge exchanged in both minor and substantial ways. Findings enrich future theorisation regarding primary school-aged kids' intercultural subjectivities and the everyday spaces of childhood.

Principal Supervisor:

Professor Julianne Moss

Co-Supervisor:

Associate Professor Joanne O'Mara

School:

Education

Roslyn Kay Gillies

Whose thesis is entitled:

'Learned or Invented? Nurses' Strategies for Calculating and Measuring Medicine Doses.'

Summary:

Nurses' accuracy in the medicine doses they administer is critical for patient safety. The identified theory-practice divide between traditional formula-based calculation methods and nurses' preference for proportional reasoning highlights a need to reassess current teaching and assessment practices. Nurses' use of syringes exposes the potential for error in measuring liquid doses.

Principal Supervisor:

Associate Professor Susie Groves

School:

Education

Dylan Gregory Holdsworth

Whose thesis is entitled:

'Dis-topias: the Government of Disability in Dystopian Children's Literature.'

Summary:

This thesis has demonstrated how representations of disability are used to reaffirm or critique dominant power structures by examining dystopian children's texts from the late Victorian to the contemporary.

Principal Supervisor:

Dr Ann Vickery

School:

Communication and Creative Arts

Amita Vengacherry Joseph

Whose thesis is entitled:

'Effectiveness of Corporate Social Responsibility (CSR) guidelines in India.'

Summary:

The thesis is on the effectiveness of corporate responsibility (CSR) Guidelines in India which is based on analysing the CSR and business responsibility reports along with the sustainability reports of select top companies from 2012 – 2015.

Principal Supervisor:

Professor Linda Hancock

School:

Humanities and Social Sciences

Mohd Fauzi Bin Kamarudin

Whose thesis is entitled:

'Restructuring in Higher Education: a Case Study in an Australian University.'

Summary:

This thesis is a case study that describes and analyses a higher education restructuring, namely: the amalgamation of two faculties in an Australian university. The findings of the study reveal that the restructuring impacted staff and students which included changes in job positions, redundancies, emotional impacts, extra work demands, loss of institutional identity and status, loss of support from the administrative staff and disrupting academic affairs. This study further shows that higher education nowadays is all about market values and that globalization changes the way a university operates and reforms.

Principal Supervisor:

Professor Karen Starr

School:

Education

William Anthony Kent

Whose thesis is entitled:

'Here Be Dragons: Ideology and Socialisation in Young Adult Literature.'

Summary:

This thesis explores the role that young adult literature plays in conveying to its readers ideological messages, which can either reinforce or subvert society's values. The thesis then incorporates this exploration into a creative young adult fantasy novel about dragons, set in a modern Australian setting.

Principal Supervisor:

Professor Clare Bradford

Co-Supervisor:

Dr Antonia Pont

School:

Communication and Creative Arts

Anne Laura Kraak

Whose thesis is entitled:

'World Heritage and Human Rights in Bagan, Myanmar.'

Summary:

Several conceptual, political and practical factors on local, regional and global scales influence the potential of human rights-based approaches to lead to social justice in the context of Bagan's World Heritage nomination.

Principal Supervisor:

Professor Tim Winter

School:

Humanities and Social Sciences

Caroline Mahoney

Whose thesis is entitled:

‘Young Women and Interculturality: a Study of Subjectivities.’

Summary:

This study employed a sociology of education/youth perspective alongside theories of subjectivity to analyse interculturality in girls’ everyday lives. Findings suggest that while girls from minoritised backgrounds engage with interculturality in their daily practices, the hegemonies that privilege majoritised girls serve to limit their respectful and equitable engagement with others.

Principal Supervisor:

Dr Claire Charles

Co-Supervisor:

Professor Christine Halse

School:

Education

Trevor McCandless

Whose thesis is entitled:

‘School Into Place: A Mixed Methods Social Semiotic Analysis of School Marketing Materials.’

Summary:

Schools with more boys than girls, large numbers of students from language backgrounds other than English or from low SES backgrounds are likely to stress strictly imposed school discipline in their marketing. Other schools stress students’ self-discipline. Such social stereotypes impact the education they provide.

Principal Supervisor:

Professor Julianne Moss

School:

Education

Megan Jane Mooney Taylor

Whose thesis is entitled:

‘Mythmaking and Masculinity in the Fiction of Norman Lindsay.’

Summary:

‘Mythmaking and Masculinity in the Fiction of Norman Lindsay’ explores the mythopoeic construction of Norman Lindsay’s literary legacy, using his fiction as a lens to investigate the dynamic between the writer, text, masculinity and nation.

Principal Supervisor:

Dr Ann Vickery

School:

Communication and Creative Arts

Jennifer Ellen Murray-Jones

Whose thesis is entitled:

‘Indigenous Families: Beyond the Voids of Colonial History.’

Summary:

This thesis examines the voids and gaps in Indigenous families resulting from colonisation. Through visual art and exegesis, the research aims to produce knowledge that allows our people to connect to our shared histories through the experiencing of artwork as ceremony and commemoration and as modes of communication that are no longer forbidden.

Principal Supervisor:

Professor Estelle Barrett

Institute:

Institute of Koorie Education

Yenny Narny

Whose thesis is entitled:

'Resilience of West Sumatran Women: Historical, Cultural and Social Impacts.'

Summary:

This study concerns women who experienced the anti-Communist violence of 1965-66 in West Sumatra, Indonesia. It makes an important contribution to the understanding of resilience in a non-western society and also presents new insights into the impacts of the events of 1965-66 on one part of the Indonesian community. Its approach that combines narrative ethnography, the study of resilience, and historical study can serve as a model for future work that seeks to understand historical events from a new perspective.

Principal Supervisor:

Professor Ismet Fanany

School:

Humanities and Social Sciences

Penelope Joy Pitt

Whose thesis is entitled:

'Family Photographs, Migrant Mothers and Student Families: a Posthumanist Study.'

Summary:

This thesis contributes a posthumanist study to the research literatures of migration and education, feminist migration studies, and family photography. It expands understandings about the movements, spatiotemporalities and affects involved in making the lives of migrant mothers, their student families and photograph collections, and contributes to post-methodology and ethics.

Principal Supervisor:

Dr Ruth Arber

Co-Supervisor:

Professor Julianne Moss

School:

Education

Thomas Dylan Sandercock

Whose thesis is entitled:

'Telling Trans: Reading Transgender Representation in Texts for Young People.'

Summary:

This thesis addressed the gap in scholarship on how transgender characters and themes are represented in media for young people. Critical analysis reveals the successes and failures of such representation, which plays a crucial role in influencing values and beliefs of children and young adults in relation to gender diversity.

Principal Supervisor:

Dr Ann Vickery

School:

Communication and Creative Arts

Christine Roma Schulz

Whose thesis is entitled:

'Learning to be Victorian Certificate of Applied Learning (VCAL) Educators.'

Summary:

This thesis explores the everyday, professional, adult learning of VCAL educators. Educators in this study frequently learnt through haphazard struggle in contexts unsupportive of their learning needs. Increasing potential for VCAL educators' professional learning includes challenging established practices of how VCAL and applied learning is perceived, spoken about and resourced.

Principal Supervisor:

Associate Professor Damian Blake

School:

Education

Junjie Su

Whose thesis is entitled:

'Intangible Cultural Heritage Safeguarding in the Context of Tourism: A Case Study of Lijiang, China.'

Summary:

The thesis investigated relations between intangible heritage and tourism in China, through a case study on Lijiang. As well as problematizing conventional understandings of intangible heritage, heritage protection practices and tourism commodification, the thesis also revealed the diversity of understandings and dynamics between government officials, heritage experts and heritage practitioners.

Principal Supervisor:

Professor Andrea Witcomb

School:

Humanities and Social Sciences

Lisa Ruth Vinnicombe

Whose thesis is entitled:

'How do Teachers Perceive Mandated Pedagogical Change and its Enactment?'

Summary:

This study investigated the impact of mandated pedagogical change on teachers. It traced the narratives of ten teachers and found that teacher identity and professionalism were crucial elements to consider when implementing change. It found that school leadership was integral to the change process.

Principal Supervisor:

Associate Professor Andrea Gallant

School:

Education

Yeti Zainil

Whose thesis is entitled:

'Stimulated Recall: Unpacking Pedagogical Practice of Code-switching in Indonesia.'

Summary:

This study explored the nature of language input provided in primary EFL classrooms in Padang, Indonesia and that an enhanced understanding of the pedagogical and affective functions of code-switching which may contribute significantly to English language pedagogy in EFL contexts in non-English speaking countries. It also proved that Stimulated recall to be a valuable technique for analysis and for the promotion of self-reflexivity.

Principal Supervisor:

Dr Rod Neilsen

School:

Education

Faculty of Arts and Education

Master Degrees

Deborah Kathleen Humphreys

Whose thesis is entitled:

‘Bushfire Safety: Examining the Space Between Theory and Practice.’

Summary:

This thesis examines the space between the theory and practice of bushfire safety. It found that the space lies at the intersection of three complex systems of bureaucracy, people, and the environment. Responding to this dynamic requires facilitating human centred, strength-based practices to enable emergent and novel collaboration between stakeholders.

Principal Supervisor:

Associate Professor Andrea Gallant

Co-Supervisor:

Associate Professor Phil Connors

School:

Humanities and Social Sciences

Yang Wu

Whose thesis is entitled:

‘Students’ Attitudes towards Mathematics and Math– Gender Stereotypes: Gender and Year Levels.’

Summary:

This study explores gender and year level based similarities and differences in students’ attitudes towards mathematics (SATM), students’ math–gender stereotypes (SMGS) and relationships between SATM and SMGS. It further confirms the significance of gender equity in mathematics education, which still requires continuing work to make up the gap.

Prizes and Awards

Alfred Deakin Professor

Council established the title of Alfred Deakin Professor to recognise members of Deakin University professoriate who have made a sustained, high level contribution to research at Deakin. The title is the highest honour the University can bestow on a member of academic staff.

The title of Alfred Deakin Professor will be conferred upon Professor Beverley Oliver, Professor Russell Tytler and Professor Christine Ure.

Professor Beverley Oliver

Professor Oliver was appointed as Pro Vice-Chancellor Learning Futures in 2012 and Deputy Vice-Chancellor Education in 2013. She leads Deakin's education strategy to advance the Deakin Promise to offer 'a brilliant education where you are and where you want to go'.

Professor Oliver also researches and publishes in areas associated with graduate employability, graduate skills and capabilities, assessment and evidence of learning, digital credentialing, curriculum reform and digital innovation. Her expertise has been recognised through two national Citations for Outstanding Contributions to Student Learning and several nationally funded grants and fellowships, including a National Teaching

Fellowship (Assuring Graduate Capabilities \$350,000) completed in 2015, a Teaching Fellowship (Benchmarking Partnerships for Graduate Employability) in 2010.

It is testament to Beverley's expertise and determination that she has been able to lead Deakin's innovative and ambitious learning and teaching agenda and maintain her research output.

Professor Russell Tytler

Professor Tytler has held a Chair in Science Education since 2005 and has worked at Deakin since 1998. Professor Tytler has national and international esteem in the field of science education and his research has impacted research directions in teaching, learning and the design of curriculum and pedagogy for STEM education across preschool, school and higher education in Australia and internationally. Having worked for nearly two decades at Deakin University he has demonstrated both outstanding and sustained contributions to furthering Deakin's research and scholarship and learning and teaching aims. His recent call for a re-imagining of science education has been highly influential on curriculum policy in Australia. He has extensive international research links, having held visiting professor position in Europe and Asia.

The scope of Professor Tytler's research has included the practices of individual teachers and learner outcomes, classroom teaching and learning processes including digital pedagogies, and school and system wide innovation involving school and teacher improvement, STEM teacher professional

knowledge and capability, assessment, and links between the schooling system and community STEM practices. His work has fostered partnerships between researchers in Education and the Science discipline and the higher education sector, school systems and university- industry-school collaborations. He is currently leading research linking art and science through creativity and imagination in scientific reasoning and knowledge building.

Professor Tytler has established STEM Education research as a major component of SRC research activities at Deakin: firstly as the Co-director of the Centre for Research in Education Futures Innovation (CREFI), and more recently in the centre for Research for Educational Impact (REDI), as leader of the STEM research program. Professor Tytler's leadership in STEM Education program is evident in the success with ARC and other funded projects that he has led and contributed to. His research is exemplified through many outstanding projects.

Professor Christine Ure

Professor Christine Ure commenced her career at Deakin in 2012 as Head of the School of Education. In the 2017 Quacquarelli Symonds discipline rankings Education was ranked 28 in the world (up from 31 in the 2016 ranking) and remains ranked at 5th in Australia.

Professor Ure is a leader in the national debate around teacher education reform and led the Victorian debate in her capacity as President of the Victorian Council of Deans of Education. One of the major reforms in teacher education led by Professor Ure is Deakin's Teach for Australia Initiative 2015-2018 which is a partnership with Teach for Australia and the Commonwealth Government for the delivery of Deakin's Master of Teaching to approximately 450 schools across Australia, including many regional and remote schools. This has set a new standard and approach to sustainable and partnership based teacher education for Australia. Under Professor Ure's leadership, the School of Education plans to extend the model over the next few years so that this operating approach to professional experience and industry partnership will

replace the more traditional practicum model for around 5,000 preservice teachings each year.

She is also a member of the Victorian Government Teacher Supply and Demand Reference Group and the Minister's Expert Panel for Schools. She also has oversight of the Skilling the Bay Project, Successful Students – STEM Program, designed to build teaching capability in secondary schools and encourage student awareness and future employment opportunities in STEM related industries. She was also a named investigator of a major research consultancy involving the professional development of senior educational managers in Vietnam valued at over AU\$220,000 during 2016.

Professor Ure contributes expertise in research and development in the areas of learning and teaching and curriculum and has extensive experience in the management of teacher education projects in Australia, Singapore, the United Arab Emirates, India and Vietnam. Her most recent research and development activities have focused on how learning goals and the design of services and programs meet the educational needs of users and systems.

Professor Ure has made a significant contribution to the teacher education reform agenda in Australia and has defined a most useful role for Deakin in that reform. She has further developed the national and international reputation of the School of Education and is viewed as one of the Australia's experts in Initial Teacher Education.

National Anthem

Advance Australia Fair

Australians all let us rejoice,
For we are young and free;
We've golden soil and wealth for toil,
Our home is girt by sea;
Our land abounds in nature's gifts
of beauty rich and rare;
In history's page, let every stage
Advance Australia Fair!
In joyful strains then let us sing,
Advance Australia Fair!

Evacuation Assembly Points

Costa Hall, Geelong Waterfront Campus

Evacuation procedures

On the sounding of the alert tone:

Beep ... beep ...

- Stand by and wait for further instruction

On the sounding of the evac tone:

Woop ... Woop ... Evacuate Now

- Follow directions of fire warden
- evacuate all occupants
- proceed to the assembly area on instruction of the chief warden
- remain at the assembly area and report any missing persons or personal items.

Do not re-enter the building until the fire brigade declares it safe to do so.

疏散程序

当响起哔... 哔... 警报声时:

- 请准备就绪等候进一步指示

当响起呜... 呜... 撤离警报声时, 立即撤离:

- 遵从消防安全员指示
- 全体人员撤离
- 根据消防指挥指示前往集合点
- 停留在集合点, 报告缺失人员或个人物品

在消防人员宣布可安全进入建筑物之前, 不得进入。

निकासी प्रक्रियाएँ

चेतावनी की आवाज **बीप... बीप...** सुनाई देने पर:

- तैयार रहें और आगे के निर्देशों की प्रतीक्षा करें

निकासी की आवाज **वूप... वूप... Evacuate Now** सुनाई देने पर:

- फायर वार्डन के निर्देशों का पालन करें
- सभी मौजूद व्यक्तियों को बाहर निकालें
- मुख्य वार्डन के निर्देश पर सामूहिक स्थल की ओर जाएँ
- सामूहिक स्थल में खड़े रहें और किसी भी लापता व्यक्ति या निजी वस्तु के बारे में सूचित करें।

जब तक फायर ब्रिगेड भवन में प्रवेश करना सुरक्षित घोषित न करे, तब तक प्रवेश न करें।

THỦ TỤC DI TÀN

Khi nghe tiếng kêu báo động:

Bíp ... bíp ...

- Chuẩn bị sẵn sàng và đợi để được hướng dẫn thêm

Khi nghe tiếng hụ báo động di tản:

Woop ... woop ... Di tản ngay bây giờ

- Làm theo lời hướng dẫn của giám thị hỏa hoạn
- Di tản tất cả mọi người
- Đi đến nơi tập hợp theo lời hướng dẫn của giám thị trưởng
- Lưu lại tại nơi tập hợp và báo cáo bất kỳ người nào không có mặt hoặc đồ đạc cá nhân bị thất lạc.

Dừng trở vào tòa nhà cho đến khi đội cứu hỏa tuyên bố là an toàn để trở vào.

PROSEDUR EVAKUASI

Jika terdengar nada peringatan:

Bip ... Bip ...

- Berdiri dan tunggu petunjuk selanjutnya

Jika terdengar nada tanda evakuasi:

Wup ... wup ... Evakuasi Sekarang

- Ikuti arahan petugas pemadam kebakaran.
- Evakuasi semua yang ada di dalam ruangan.
- Pergi ke lokasi berkumpul sesuai perintah kepala tim pemadam kebakaran.
- Jangan beranjak dari lokasi berkumpul, dan laporkan jika ada orang atau barang pribadi yang tertinggal.

Jangan kembali ke dalam gedung sebelum tim pemadam kebakaran memastikan kondisi sudah aman.

إجراءات الإخلاء

عند سماع صوت جرس التنبيه:

بييب ... بييب ...

- استعد وانتظر مزيداً من التعليمات

عند سماع صوت إنذار الإخلاء:

وووب ... وووب ... الإخلاء الآن

- اتبع إرشادات المُختص بالحرائق
- إخلاء جميع الموجودين
- انتقل إلى منطقة التجمع وفقاً لتعليمات الموظف المسؤول عن الإخلاء
- البقاء في منطقة التجمع، والإبلاغ عن أي شخص مفقود أو أعراض شخصية مفقودة.

لا تدخل المبنى مرة أخرى حتى يعلن مسنول الإطفاء أن الأوضاع آمنة للقيام بذلك.
